Rear Adm. Richard Evelyn Byrd (left) uses a pipe as a pointer in locating on a globe the area into which he will lead a Navy Antarctic expedition early in 1947. With him at Washington, D. C., are Asst. Adm. Forrest P. Sherman (center), deputy chief of naval operations, and Capt. Richard H. Cruzen, who was commanding the task force assigned to the expedition. (AP Wirephoto)

## Home Bureau, 4-H Club Ask Fund for Assistants

Both Departments Claim Burden of Work Too Heavy for Agents; Supervisors Conduct Routine Session

A request was made to the Board of Supervisors Tuesday evening for increased appropriations for both the Home Bureau and the 4-H Club in order that assistants might be secured. The request by the Home Bureau was for the same appropriation as in 1946, the sum of \$5,400.

In the annual report of activities and the submission of the 1947 budget, the Home Bureau asked for an increase of \$2,000 over the 1946 budget in order that an assistant might be hired. The state will contribute \$1,500 toward the salary of an assistant but the remainder as well as the expenses of such an agent must be appropriated by the Board of Supervisors. The request was for \$6,500.

## Chaplain Kelly Is To Serve Rosendale

Rev. John Kelly Will Succeed Rev. McDonald at St. Peter's Church

The Rev. John Kelly, who during World War 2 served as a chaplain in the U. S. Army, will succeed the Rev. William J. McDonald as pastor of St. Peter's Church, Rosendale, and the Catholic churches in High Falls and Whiteport. The Rev. Father Kelly, who on terminal leave has been serving as chaplain at St. Elizabeth's Hospital, New York City, will arrive in Rosendale on Saturday. A farewell testimonial party will be tendered Father McDonald by his parishioners tonight at the school hall in Rosendale. The program will get underway at 7:30.

## Urges Ex-Gobs to Send For Leave Pay Now

Washington, Nov. 13 (AP)—Commerce Secretary William R. Ryan, fiscal director of the navy, appealed to former navy men today to hurry up with those applications for terminal leave pay. Something like 2,000,000 hadn't been heard of as of last Saturday, when the total received stood at \$165,224.

The navy now is paying claims at the rate of 20,000 a day," Ryan said in a statement, "and unless we can continue to receive a substantial amount of the expected 3,500,000 claims we cannot utilize the capacity to which we are now built up for the ex-service men's benefit."

## Bilbo Is Bruised

Poplarville, Miss., Nov. 13 (AP)—Sen. Bilbo (D-Miss.), 69, re-elected in November, was shaken up and bruised last night in an automobile accident here and spent the night in the Poplarville hospital. His secretary reported that the senator had suffered only a "bump on the nose." The secretary said the car crashed into the rear of a truck while the senator's vision was blinded by lights of some passing cars. Bilbo's car was damaged considerably.

## Hip Is Broken

Pearl Street Man Is Hit by Car: Son-in-Law Was Backing Auto

Edward Deitcher, 94, of 133 Pearl street, sustained a broken hip when he was struck and carried down Tuesday by an automobile operated by his son-in-law, Edward G. DeWitt of 145 Pearl street, according to a report made to the police by Mr. DeWitt. The aged man was conveyed to Kingston Hospital.

## Noted Cameraman Shows His Wares at Meeting at Hotel

Victor Coty Is Featured by Dinner Club; His Work Reveals Out of Door Wonders

The great outdoors restores the joyous wonder of youth and participation in outdoor sports and activities is the only fulfillment of man's ancestral pursuits, Victor Coty, one of America's foremost outdoor color photographers, told 200 members of the Kingston National Dinner Club last night at the Governor Clinton Hotel.

Mr. Coty, a recognized authority in his field, appeared in the third lecture of the current series sponsored by the local club. He was introduced by Harold V. Clayton.

Since nature was a combination of travel, natural history, beautiful scenery and thrilling sport shots, faithfully recorded by a man who said he was not a sportsman in the accepted sense of the word.

Since mankind evolved out of doors, Mr. Coty said, his ancestral pursuits—hunting and fishing—demand fulfillment to keep man at his highest level of perfection. He pointed out that the so-called industrial revolution is not more than 100 years old but its toll on the human race is startling. If men reverted to the outdoors regularly, he said, there would not exist the alarming percentage of physical breakdowns in men between the ages of 40 and 50 and the tremendous rise in mental and physical difficulties among people.

## Urges Balanced Life

The famous photographer said he took up professional photography because it gave him an opportunity to be out of doors. He urged a happy balance in man's approach to outdoor sports and activities. Mr. Coty declared that often persons become fanatics in fishing or skiing but the man who maintains a balance is the one who derives most benefit.

"The game angle of hunting and fishing," he said, "actually is the least important. Getting out into the open is the real thing, the beneficial factor of such pursuits. The continuity of these sports is the motivating factor in getting men out into the open."

The fisherman, he continued, enjoys a scenic satisfaction that defies description, while the skier, viewing a vast panorama before him receives a spiritual uplift that never can be found indoors. The mental and physical good of outdoor activities is supplemented by a spiritual uplift to man that can be found only in God's country and nowhere else.

This fulfillment, this return to the ways of our ancestors," Mr. Coty said, "can happen to everyone if they expose themselves to it. I hold no brief for people who say they cannot find time to get outdoors. Constant exposure to the outdoors makes for better physical well being and a more rounded life."

Hiking Clubs Not Strong

# City's Four Christmas Clubs to Give Out \$647,000 to Set Local Record; National Distribution Is \$635,000,000

## Economists Insist O. P. A. Collapse Will Delay Recession, Help Budget

### U.S. May Free Grain From Controls, Due To Record Harvest

Four Hundred Million Bushels of Wheat Allocated to Go Abroad

Washington, Nov. 13 (AP)—With a record production of grains assured by ideal fall harvest weather, speculation in trade circles centered today on the possibility of further relaxation of government controls over their use.

Flour millers, whisky makers and brewers still are operating on short rations of wheat, corn and other grains. Those regulations were imposed last spring during the acute world food shortage.

Secretary of Agriculture Clinton P. Anderson is described by aides as eager to carry out President Truman's program for ending all wartime controls, but he is said to be hesitant in regard to grain.

These aides say the secretary wants to avoid a repetition of what happened last winter. With the government exercising tight control over use of grain then, supplies were reduced to a very low level before it was discovered that this country would have difficulty meeting its foreign commitments.

The United States has earmarked 400,000,000 bushels of wheat, corn and other grains for export from this year's crops. If the government were certain that this quantity would be needed to meet foreign demands, it could feel safe in ending controls over their domestic use.

May Increase Allocations

Even with the uncertain export outlook, however, officials predicted the government soon may increase grain allocations to distillers and brewers. They said that distillers may be allowed corn at the annual rate of 50,000,000 bushels, twice that of the past 12 months.

In its semi-final crop report of the year, the department said yesterday that unusually favorable weather in October had boosted yields and given farmers full opportunity to harvest crops and to complete seeding of fall planted grains, such as winter wheat and rye.

It said the October weather had virtually assured a record crop production this year. Included are record crops of corn, wheat, potatoes, tobacco, peaches, pears, plums and truck crops, near-record crops of oats, rice, soybeans, peanuts, grapes, cherries and sugar cane, and above average crops.

### Three Drunken Driving Cases Are Adjourned

Adjournments of a month each were taken today in police court in three cases of operating an automobile while intoxicated. All three cases have been pending for some time, and had been set down for trial today.

The adjournments were granted by City Judge Matthew V. Cahill. The three whose cases were again adjourned are Joseph K. Scott of Walkkill; John Nelson of Rosendale; and John Trumpait of Lincoln Park.

Trumpait has two charges of drunken driving lodged against him by the police. One arrest was made last year and the other on October 26.

Scott was arrested on May 25, and Nelson on June 28.

### Los Angeles Storm Causes One Death

Los Angeles, Nov. 13 (AP)—One death and numerous injuries were blamed today on the season's first big storm, as heavy snows marooned scores on mountain roads, floodwaters closed highways and bridges and in some lowland areas threatened to lap into houses.

More rain, with snow in the high reaches, was forecast throughout today.

Along the coast, at least four cabin cruisers were torn from their moorings by high seas and cast ashore.

In Los Angeles 3.30 inches of rain fell between 2 a. m. Monday and 3 a. m. today, and precipitation in other areas was proportionately heavy.

### Tax Credits May Be Increased to Give Employers Break

Reduction of Surplus Is Big Item; Fund Now Is About 900 Millions

The question of increasing unemployment insurance tax credits to employers having less unemployment and reducing the surplus in the state fund, were raised at a meeting of the Mid-Hudson Industrial Association yesterday at the Nelson House in Poughkeepsie.

The meeting was co-sponsored by the Chambers of Commerce of the area and about 40 persons were present. Don Williams, secretary of the Kingston Chamber of Commerce, attended.

The guest speakers, Milton O. Loysen, executive director of the Division of Placement and Unemployment Insurance of New York State, and Travis Whitney Jr., chairman of the Employers' Conference of New York, were practically in agreement on modifications of the present tax plan.

It was pointed out that the "tax credit" system might be modified to include the best features of the "merit rating" plan. Manufacturers and the state tax department both are concerned with reduction of the surplus, which now amounts to one billion dollars, but a more accurate forecast of future business conditions must be made by the state before Mr. Loysen's department can determine the amount the surplus should be reduced, it was said.

Previous estimates placed the surplus fund at approximately 900 million dollars.

A salient point was that because approximately 42 per cent of those employed in the state are either in the apparel industry or in New York City, a separate system for New York City and one for the remainder of the state might more evenly correct weaknesses in the unemployment insurance rate system.

### Discusses Fundamentals

Mr. Loysen discussed the fundamentals of the unemployment compensation act and the administration of the new tax credit law passed in 1945. He said that the present surplus of one billion dollars exceeds by nearly a hundred million dollars previous conservative estimates.

### General Living Costs Are Not Expected to Rise More Than 5 Per Cent

Washington, Nov. 13 (AP)—While the collapse of O. P. A.'s price barriers will pack living costs up a few percentage points, government economists insisted today it also will:

Delay any business recession, and Help President Truman balance the federal budget.

Despite widespread reports of surging prices, these economists predicted the general cost of living level will not climb more than five percent, and probably not that much, before stabilizing.

That compares with a 12.8 per cent rise between V. J. Day and mid-September before O. P. A.'s decontrol movement went into high gear—and a 44.7 per cent rise since this country went to war.

This five per cent guess, made by one O. P. A. economist, was considered too high by some other government experts interviewed today. The average price of goods sold over-the-counter might go up that much, they said, but if rents and such services as laundry, cleaning and repairs hold reasonably steady, the average cost of housing, clothing and feeding a family won't jump that far.

However small the comfort may be to consumers who yesterday saw some soaps go up 3 cents for a small cake, the bigger flow of dollars going into the business—government's tax revenue.

### Definitely Improves Chances

One official, who preferred to make his predictions anonymously, said it "definitely improves" the chances that Mr. Truman will make good on balancing his \$41,000,000,000 budget for the fiscal year ending next June 30.

It won't happen in just the way Mr. Truman wanted it to, however. His aim was to cut federal outlays.

### U. N. Secretary Says Site Selection Undetermined

Hercules Workers Designate U.M.W.

Port Ewen Plant Becomes Fifth Plant Under Mine Union

Hercules Powder Company employees, by a vote of 303 to 135, yesterday designated District 50 of the United Mine Workers of America, A.F.L., as their official bargaining agent in negotiations for a union contract.

The action taken by the employees of the Port Ewen plant marks the fifth Hercules plant to accept the United Mine Workers as their bargaining agent.

The election was held under the direction of the National Labor Relations Board. The balloting was held from 3 p. m. to 4:30 p. m. Tuesday at which time a total of 438 ballots were cast.

Tuesday's election climaxed several weeks of organizing work at the Port Ewen plant. At one time District 50 and the Kingston Metal Trades Council both sought the bargaining rights for Hercules workers but the local union withdrew several weeks ago.

### Nine Defendants Are Arraigned at Session of Court

September Trial Term Is Re-convened at Ulster Court House; 36 Cases Called

Nine defendants were arraigned in County Court Tuesday afternoon when the September trial term was re-convened for the purpose of disposing of a criminal calendar.

District Attorney Louis G. Bruhn arraigned defendants named in sealed bills and pleas were entered. Other cases appearing on the regular calendar were called and in three cases when the defendants were in court and their cases moved for disposition, pleas of guilty were entered and sentence will be pronounced later.

Elizabeth Wright of Shandaken was arraigned on a charge of violation of Section 1751 of the Penal Law, violation of the drug law, alleged to have been committed on March 7, 1946. A. J. Cook was assigned, a plea of innocent was entered, bail was continued and the case went over until the February term.

Nicholas Iovino of town of Saugerties was arraigned on a charge of burglary, third degree, and unlawful entry to a building, alleged to have been committed on September 6, last. Chris J. Flanagan was assigned and a plea of innocent was entered. Bail was continued and the case was moved over to the February term.

Edward Hecht of Marlborough was arraigned on a charge of pointing a gun at another, alleged to have been committed on October 9, last. Case was moved over until the February term.

and a plea of innocent was entered. Bail was continued and the case went over until the February term.

Charles Henry North was arraigned on a charge of unlawful entry to a building on September 13. William A. Kaercher appeared for him and an innocent plea was entered. Bail was continued and the case went over until the February term.

George Slover was arraigned on a charge of unlawful entry to a building on September 13. William A. Kaercher appeared for him and an innocent plea was entered. Bail was continued and the case went over until the February term.

### Kingston Trust Leads With \$385,000; Next Is Rondout National, \$110,000

Total Is Ahead Metropolitan Areas Run at \$100; 8,300,000 Americans Take Part

Kingston's four Christmas Clubs will distribute to its members this month a total of \$647,000, according to information furnished by the four local banks who have Christmas Clubs. This is an all-time high in the 36 years of Christmas Club operation in the city.

The amounts of Christmas Club savings in the city follow: Kingston Trust Co. ... \$385,000 Rondout National Bank 110,000 State of New York National Bank ... 100,000 National Ulster County Bank ... 52,000

Total ... \$647,000

The huge sum of \$635,000,000 will be distributed to 8,300,000 thirty Americans during National Prosperity Week, beginning November 25, according to figures released today by Herbert F. Rawlin, founder and president of Christmas Club, a nation-wide corporation.

The total distribution is 13.7 per cent ahead of last year and represents an all-time high for the 36 years of club operation. The average per member distribution is about \$100 in large metropolitan areas and \$76 for the entire country, as against \$72 last year.

Shows 700,000 Increase

The total number of individual members participating in the year shows an increase in the nation of 700,000 over a year ago.

A recent cross section survey indicates the estimated funds of \$635,000,000 will be used by the recipients approximately as follows:

Permanent savings 32% \$203,200,000 Insurance premiums 12% 76,100,000 Tax relief 7% 44,500,000 Current bills 7% 44,500,000 Taxes 10% 63,500,000 Christmas purchases 32% 203,200,000

100% \$635,000,000

In the distribution of Christmas Club funds this year, New York State leads the other states with about \$176,000,000, the estimates for Pennsylvania are \$18,000,000, for Massachusetts \$63,000,000, for New Jersey \$49,000,000. New York's metropolitan area will receive about \$110,000,000. The Bank of America, N. Y. & S. A. has about \$12,500,000, for 125,000 members in California.

### Air Liner Missing

Burbank, Calif., Nov. 13 (AP)—A Western Air Lines plane, with eight passengers and a crew of three aboard, was missing today apparently in the snow-capped mountains north of here. The two-motored Douglas DC-3, inbound to the terminal here from Salt Lake City, was last reported at 3:24 a. m. (Pacific Standard Time). Western Air Lines' spokesman identified the pilot as Capt. Gerald Miller and the co-pilot as Ted Mathis and the stewardess as Joan Fautleroy. Names of passengers were not available.

### Seven Persons Injured

Santiago, Chile, Nov. 13 (AP)—Seven persons were injured last night when a U. S. Army Douglas plane crashed in the Andes near Uspallata on a flight from Panama to Santiago. Two among the crew of five and four passengers were uninjured. The plane carried spare parts for the American Air Mission in Santiago. Names were withheld.

Probe Abroad Forecast

Washington, Nov. 13 (AP)—An immediate Senate investigation into charges involving the military occupation of Germany and Austria was forecast today by Senator Brewster (R-Me.).

Night Is Coldest

City Thermometer Says 33 Degrees; Has Been Warm Month

Skim ice and a heavy frost marked last night as one of the coldest so far this month with the official city thermometer registering a low of 33 degrees, as thermometers in other sections of the city recorded even lower temperatures.

The cold weather followed several days of moderate November temperatures in Kingston. Yesterday temperatures in the city ranged from 39 to 60 degrees.

Gas on Stomach

When one stomach is full, one's mind is not so clear. This is the reason why one should not eat too much. The stomach is a very important organ and it should be kept in good health. One should eat only what is necessary and not overindulge in food.

Five famous names in Interior Paint

Sani-Flat!

Dulamel!

Interior Gloss!

Impervo!

Utilac!

Each dependably made for a SPECIAL purpose by Benjamin Moore - - a great name in Paint for more than 60 years!

Sani-Flat

Specially made to give a smooth flat finish, soft as velvet, flatting as a background for furniture! Sani-Flat is a washable oil paint of enduring quality, a sound choice for those who invest in home beauty. Spreads 800 square feet per gallon. Shows no laps or brushmarks. Smoothly covers plastered walls, ceilings, woodwork of all kinds, wallboard and metal surfaces.

Dulamel

Answer to the need for a glamorous semi-gloss! Dries overnight to a soft, restful non-gloss finish that steps up the charm of any room. Easy to apply to interior walls, woodwork and ceilings. Particularly attractive for bathrooms, kitchens and hallways. May be washed and rewashed. Permanent, attractive colors.

Interior Gloss

Kitchen fumes or bathroom moisture won't affect its high hard gloss. A superior product especially developed for inside walls and trims. Dries overnight. Washable and extremely durable.

Utilac Enamel

Famous for its satin-finish and quick-dry. Use it for the White Wood Trim in a Hyacinth Blue Living Room. Or the Petal Pink Trim in an Apple Blossom Bedroom. Or the Light Gray Woodwork in a Tropical Dining Room. Or use it for cupboards, cabinets, furniture and toys.

Impervo Enamel

Impervo is the right idea for a bright idea in your home beautiful. Its rich gloss adds highlighted color to interiors. Choose it in French Blue and Platinum Gray for a Bow Knot Bathroom. Or in Aqua Green and Pale Ivory for a Copper Kettle Kitchen. Or in Turquoise Blue and White for a Jewel Case Kitchen. Use it also for outdoor furniture, bicycles and boats.

Tile-Like Floor Enamel

Provides a tough finish especially made to withstand the day-by-day wear of heavy traffic in home or factory. Resistant to oil, grease or alkalies. Gives a quick-drying easy-to-clean gloss finish in a good selection of colors.

STOVE PIPE ENAMEL  
25c 1/2 pt. 35c pt.  
STOVE LINING  
2 1/2 lbs., 30c. 5 lbs., 49c  
Rutland Patching Plaster  
2 1/2 lbs., 25c. 5 lbs., 40c

Porch and Deck Paint

Wears like iron because it has a full durable gloss that laughs at weather and the elements, and is highly resistant to scuffing feet. Dries quickly.

Watertite Roof Coating  
An asphalt-asbestos product. Keeps rain out!  
5 gals., \$2.15

High Power Perfection Oil Cook Stove

This is the famous "High Power" three-burner model that gives you new fast cooking efficiency! Wide cooking top with extra room behind the burners, 6-inch high splash back, and removable tray under the burners to make cleaning easy. Attractive black and white enamel finish. Glass reservoir encased in metal.

Freedom of Press Produces Trouble Among Jap Masses

By DUANE HENNESSY,  
Tokyo, Nov. 12 (AP)—Japan's masses seem to be having a lot more trouble understanding the newly won freedom of the press than do the nation's editors. Newspaper shops have been wrecked and publishers beaten because of the things that have appeared in their columns. Allied headquarters definition of a free newspaper has not been a popular one with some of Nippon's labor unions nor with some of the more outspoken citizens. It has been assailed by various groups affiliated with the Communist cause both in Japan and the United States.

**Told to Be Fair, Honest**  
Generally, the editors themselves have eagerly accepted the definition propounded by Maj. Daniel C. Imboden, officer in charge of the Japanese press and publications. He has told them they are bound to be fair and honest in their editorial interpretation, must resist attempts of government officials to have them deviate from the truth and must determine their own policies without control by any party or group.

Japanese newspapers go in heavily for home affairs. Now they can say what they want about the cabinet, the nations' leaders, the Zaiatsu, Labor or Communists. They print only two pages and use little world news. **No More Propaganda**  
The biggest chance is that their columns no longer are filled with government propaganda which formerly they were required to publish. The editors are the bosses now, except for occupation censorship which tosses out criticism of an Allied nation. The newfound freedom has resulted in some interesting incidents. Not long ago the left wing Minpo Shimbun attempted to publish a caricature of the emperor. Its editors dislike the emperor system and want a Swiss type state. But when the union that prints Minpo discovered the implications of the cartoon it burned 18,000 copies of the paper and refused to deliver the remaining 22,000.

Major Imboden ruled that he could see no difference "between

Toku's though police who held a pistol to the editor's head and said "Publish what the board of information tells you," and a union which informs a management that it must conform to the union's ideologies or it will not publish and distribute the paper."

**Compelled to Deliver**  
He said that while Minpo's editorial criticism of the emperor system was "often harsh, sarcastic and extreme," the cartoon was within bounds of public interest. The union was compelled to deliver the remaining 22,000 copies. Another case was that of the Nigata Nippo which carried a story listing the names of black market operators who rioted with the police. When the editor refused to make a retraction without an investigation, gangsters destroyed his printing establishment. Imboden rebuked the Japanese press because only two papers in the country carried reports of this incident which was distributed nationwide by the Kyodo News Agency. The gangsters were arrested and convicted.

On the humorous side but still held by Imboden to be an infringement of editorial rights was the case of the Kyoto Shimbun. A group of Chinese contended it was unfair to the Chinese and threatened to wreck the plant.

**'Bed Bug' Inquiry**  
Inquiry disclosed that the paper was carrying a local druggist's advertisement of a spray that was sure death to "China bugs," the common Japanese name for bed bugs on the theory they came from China.

The editor appealed to Imboden, asking whether this violated the press code provision against criticism of an allied power. Imboden ruled he could not find any false statements, that the complaint did not come from the Chinese mission, that a free newspaper has the right to use the vocabulary of the country in which it publishes, that the bugs should be killed and that the spray was an aid to humanity.

Through all the tribulations that have beset him, Imboden has held to the belief that behind the Japanese editors is a year of progress. Most of them, said this former San Luis Obispo, Calif., publisher, realize that freedom must be developed by constant education, vigilance, economic policy and access to information.

State Is Prepared To Control Snow And Ice on Roads

Albany, Nov. 13—Arrangements for control of snow and ice on state highways during the coming winter months have been completed, it was announced today by Charles H. Seils, state superintendent of public works. Such work became a state function under terms of legislation enacted this year.

Previously the counties were responsible for all snow control on the highways. The state paid half the cost of such work, but not in excess of \$75 per mile, with State Department of Public Works maintenance crews performing all necessary sanding and ice control operations at state expense.

Except in a very few cases, the actual snow and ice control operations will be done by the counties under contractual agreements with the state, said Mr. Seils. Those counties which have not elected to perform the work under agreement with the state have arranged to make all possible county equipment and personnel available to the state on a recompensable basis, he added.

Because ice control has never before been a county responsibility, said Mr. Seils, several counties have found themselves unequipped to perform all the work of sanding this year. In those cases, he declared, the State Superintendent of Public Works has agreed to cooperate with the counties this year by making available to them such equipment and manpower as it may have.

In some counties, he explained,

available snow control equipment is barely sufficient to adequately handle the plowing of town and county highways which must be kept open for general traffic, the operation of school buses and for the transportation of milk to market. Where such conditions have prevented the county from undertaking snow and ice control operations on state highways, the Department of Public Works, using its own equipment and maintenance crews, will perform the work. Under the 1946 legislation snow and ice control are now integrated into a single program. The department's county assistance working out of the offices of the various district engineers, will be responsible for direction and supervision of the work in their respective territories. Counties, performing the work under agreement with the state, will be paid in full for the use of personnel and equipment required.

Gibraltar has belonged to the British since 1704.

HERZOG'S

## More than 2,000 OPA Employees Go Out After Jobs

New York, Nov. 13 (AP)—More than 2,000 O.P.A. employees in the New York region started job hunting today after being handed 30-day dismissal notices in a general consolidation of existing Price Control offices.

The region is made up of New York, New Jersey, Pennsylvania, Maryland, Delaware and the District of Columbia.

The dismissals and a plan to

shut down 11 district offices—whose functions will be assumed by five state offices and one in the District of Columbia—were announced yesterday by James L. Meader, regional O.P.A. administrator.

He declared, however, that despite abandonment of some alleged violation cases, there will be no discontinuance of pending criminal cases or of treble damage suits involving millions of dollars.

Meader said 5,219 cases of all kinds now were pending in courts, in which the government seeks to recover a total of \$35,000,000 in treble damage claims for violations. In addition, there are 6,591 other cases under review.

Meader, former president of Russell Sage College, Troy, N. Y., said he had no information on the status of rice controls. The plans for sugar, he said, provide for retention of small sugar stations in each state in the region and in the District of Columbia under regional supervision.

## U. S. May Find How to Stop Tooth Decay From Islanders

By ALTON L. BLAKESLEE  
(AP Newsfeatures Writer)

New York, Nov. 13 (AP)—From natives on Pacific Islands, the U. S. Navy hopes to find new clues to the prevention of tooth decay, a disease affecting 80 per cent of Americans.

The research into dental caries or decay is only one of the projects planned at the new Guam Navy Medical Center, just recently launched as a main spring for bettering the health of 100,000 natives on 57 populated islands acquired by the United States in the Pacific war.

The principal work of the center will be to train native doctors, nurses, and technicians for the islanders, but research on numerous problems is either planned or underway, said Dr. Victor G. Heiser, a well-known authority on tropical diseases who helped establish the center.

Tooth decay will be one problem tackled. On some of the islands, Dr. Heiser explained, almost all the natives have nearly perfect teeth. On others, dental decay is widespread. Presumably, he said, diet or drinking water account for the difference. If the reason can be determined, the findings might be applied in the United States and elsewhere.

Dr. Louis, author of the best-seller "An American Doctor's

Odyssey," recently returned from acting as consultant to Rear Admiral H. W. Smith, who had charge of naval medical research during the war and was largely responsible for planning the Guam center.

### School Established

The Guam Center, he said, has established a school giving a four-year medical course for native medical practitioners, a training school for native nurses, and a third school to train native technicians as laboratory assistants. Thirty-seven native doctors now are attending the medical school.

This trained personnel will be sent out to various islands to direct measures for improving native health, Dr. Heiser said. Years ago he established a similar course in the Fiji Islands, and native doctors largely were responsible for marked improvement in the health of Polynesian natives.

The Guam Center also is giving a post-graduate course for regular Navy doctors on tropical diseases and problems peculiar to the area and the navy has established a medical research laboratory which is specializing on tropical diseases, including leprosy, although it is rare on the islands.

### Native Diseases

While Guam is the headquarters, the Navy maintains in remote doctors and nurses to the islands to treat the sick. One widespread

## TWO PARTY SYSTEM

That part of the foreign press which interpreted the Republican election victory as foreshadowing a swing toward isolationism does not understand this nation's two party system. Nor do those Americans who fear that Republican control means retardation of all social gains. The United States as an entity stands above and beyond party politics, as witness the united war effort, and likewise the fact that working for common postwar domestic attitudes and international programs are Republicans such as Vandenberg and Democrats such as Byrnes.

Stanley High, magazine writer, touched this in a recent speech, saying that the New Deal was a part of a process at work for the benefit of the individual man which has been going on in this country for 150 years. If the Democrats had not made the social gains, the Republicans would have had to do so, he said.

To remain a democracy the United States needs more than one political party. For 15 years it has been run by one party. The Republican landslide was more than a counter-swing of the pendulum. It was a wholesome indication that the ballot box still is a vocal, vital instrument in the hands of the common people. Thoughtful Democrats see this. Leadership exacts penalties. The same electorate that unseated the Democrats will be watching to unseat Republicans if they do not measure up to what American citizens want. This is democracy at work. All parties should be deeply thankful that it is so.

Finnish workers have a true sense of values. Factory employees in Helsinki took a half day off to celebrate the execution of the German war criminals. They realize that few things would be more helpful to workers everywhere than the prevention of such wars as that which the Nazis started.

## BRIEF ESCAPE

After all, people can't be serious and profound all of the time. It is for this reason that the public relishes so much a good, rousing story of gem thefts, like that which happened, unfortunately, to the Duchess of Windsor during her visit to England. Or the tale of the \$5,000-a-year linotype cashier who made off with a million dollars of embezzled funds, calmly bringing up \$65,000 or so in cash from a basement hideout. It's the same urge that turns staid citizens into detective story fans today, and made dime-novel readers of their grandfathers. Lincoln, himself, it is said, read the dime dreadfuls first brought out by a man named Beadle in the Civil War era.

It doesn't mean that people lionize criminals or make heroes of the Jessie Jameses. It's just a bit of escape mechanism, the same thing that packs movie houses for a thriller, and sends folks to the legitimate stage. And who can blame a body for trying to forget for a few minutes the political messes and the dangers that hang over our heads?

Generals no longer die in bed. War Department figures reveal that the United States lost 92 generals during the war, besides 19 who were taken prisoner. Most of the deaths occurred in or as a result of battles. Being a general is now definitely a hazardous occupation.

## THE CHANGING WORLD

Yes, as Tennyson wrote long ago, and as wise men have always known—"The old order changeth, yielding place to new, And God fulfils himself in many ways, Less one good custom should corrupt the world." Our ways of life change, and we ourselves change with them, and people shake their heads sadly and wonder what we are coming to in such new ways of life and thought. But be it life or manners or politics or any other novelties, the new things are bound to intrude and demand a chance for themselves in the new order that arises.

And who shall say that new ways are not good, even as the old ways were in their time? But there are some things of high

# 'These Days'

By George E. Sokolsky

## RENTS

The last important function of the O.P.A. is the maintenance of the ceiling on rents. Property owners complain that with increased service charges, increased taxes and increased costs of materials, they are entitled to increased rents. There is much to be said in support of their argument. Certainly the net return on real estate investments in large cities is insufficient to stimulate new building, except with extraordinary financial aids by government either in the form of financing or tax exemptions.

On the other hand, tenants in buildings, particularly those who pay medium to higher rents, have noted in many parts of the country, and particularly in New York, a deterioration of service. It will be difficult for owners to explain why, when buildings were not fully occupied, the protective services of these buildings were more adequate than they are now when the buildings are fully occupied. Laziness, carelessness, and inadequacy have become so marked as to be observable even to the uninitiated.

My own experience is this: I live in an excellent apartment in a deteriorating neighborhood. Generally speaking, the rent is what it is because the neighborhood no longer commands more, although once such an apartment as mine commanded the highest rent level. During the Depression years and before the war, when the building was not fully occupied, the service was adequate, even excellent. And the building was operated at a loss.

Since the service men struck for and received higher pay and shorter hours, the service has been reduced by the process of not permitting what management regards as excessive overtime and not adding to the staff to offset the reduced working hours of the men. This amounts to a lessening of coverage. And it has resulted in some robberies as well as in a lack of rigid maintenance. The argument is that the management cannot get additional help, except Negroes, to whom there is for some unaccountable reason objection which I cannot understand, as certainly there can be no race prejudice against a Negro taking care of a boiler. I do not regard that as any ample explanation but one given merely to avoid hiring additional help.

I cite this as an example because I am engaged in quarreling over this and other inefficiencies, absurdities, and prejudices in the management of an industry whose public relations antedate the Civil War. They do not realize, as some butchers do not, that the consumer will remember, when the housing shortage is over, that the long view of consumer contentment was not taken by management. The housing industry still thinks of itself as the real estate business, which is a wrong point of view. Housing is a servicing industry; real estate is an investment or speculative financial operation. While housing involves real estate, its essential function is service.

I, who believe that property owners are entitled to due compensation and wish to see government out of housing, am appalled by the lack of grasp of simple merchandising and consumer relations on the part of real estate operators. Landlords fail to grasp the fact that they have a commodity to sell which is subject to the law of supply and demand and to acceptability through courtesy and service.

I ran into another bad racket here in New York which may be true in other cities. If you park your car on the street, you get a ticket. So, you have to hire space in a garage. Many of these garages are owned by speculators who are taking advantage of shortages to make a killing, expecting to sell the garage before the shortage is over. They therefore assume no responsibility for cars left with them, force payment for prolonged lack of occupancy as during Summer absences, provide hardly any service even when contracted for, and fill their space to the point of physical danger. There is nothing that can be done about it now except for city authorities to fine them for violations of the building codes. It is again a matter of taking advantage. Americans will know how to get even when the time comes.

# THAT BODY OF YOURS

By James W. Barton, M.D.

(Registered in accordance with the Copyright Act.)  
CONGESTIVE HEART FAILURE

We have been told for a long time and often that drinking as much water as we can is good for our health as it washes out the intestine, washes out the kidneys and is needed by all the cells of the body. That water will do all this for us is true and that most of us could drink more water with benefit to our health is true, but that everybody should drink all the water they can and receive benefit is not true. We are told also that we need more salt sodium chloride than we are in the habit of taking, that salt is needed by every cell in the body and in a sense helps to "preserve" the body tissues. That salt is needed daily is true but that everybody could eat more salt with benefit is not true. If there is too much water in the tissues either because we drink too much water or eat too much salt which holds water in the tissues, we greatly increase the work of the heart, overstretch the blood vessels increasing the blood pressure and add further to the work of the heart.

That many could drink more water with benefit if they could cut down on their salt intake is stated by our physiologists. That too much salt is harmful in congestive heart failure is reported by Drs. W. C. Budkes, E. O. Wheeler, and P. D. White in the New England Journal of Medicine. These physicians state that these cases of heart failure should be treated in the usual way with digitalis and reduction in the food intake but the cutting down on the salt intake both at meals and in the cooking there will not be the same need for drugs such as digitalis and ammonium chloride to drive the water from the tissues. Being able to drink more water by avoiding or cutting down on salt is comforting to the patient.

What is called the low sodium (salt) diet because it contains but a small quantity of sodium consists of apples, asparagus, cabbage, Brussels sprouts, lettuce, grapes, lemons, oranges, sugar, jelly, honey, unsalted butter and bread.

Foods rich in salt and should be avoided are salt meats, salted butter, crackers, corned meats, all salted foods.

This low sodium diet because it prevents tissues holding too much water is also helpful in ringing ears and head noises.

## Why Worry About Your Heart?

Do you get out of breath on slight exertion? Does your heart seem to skip beats or beat irregularly? Send today for Dr. Barton's interesting booklet on this subject entitled "Why Worry About Your Heart?" To obtain it just send ten cents and a three cent stamp to cover cost of handling and mailing. To The Bell Library, in care of The Kingston Daily Freeman, Post Office Box 99, Station G, New York 19, N. Y.

value that never change. Among them are courtesy, kindness and open-mindedness.

It is beyond human understanding, what one well-meaning little kid can do to a well-ordered house.

As for this rather crazy modern civilization, while there's soap there's hope.

## A Modern Fable--

THE EAGLE AND THE BEAR AGREED ALL THE ANIMALS SHOULD DISARM--

# Leaves From Boyle's Notebook

By HAL BOYLE

New York, Nov. 13 (AP)—America, to one returning after several years abroad, seems like a giant crippled by pygmy fears.

Or, perhaps, like a schizophrenic lion in a field of mice, brooding over which one may grow up and give him trouble.

The national temper, bold, resourceful and aggressive under the strain of war, appears to me to have deteriorated under the frictions of victory and uneasy peace.

There is lacking above all—balance, the long view and confident faith in the immediate future, a future better than the people of any other country can even dream of.

You get a feeling of self-dissolution and personal insecurity, both largely unreasoned and baseless. These are the more striking to one just back from other lands, where America is still regarded by the common people as the beacon light to a secure world.

As one observer told me in Switzerland: "You people appear to have no real idea of your power and prestige at this moment. Nothing is impossible for the United States now."

He was speaking less of America's economic might than of the impact of its moral prestige in assuring permanent world order—a prestige created by the force of its arms in war and enlarged since by its huge gifts of food and clothing to distressed countries.

There is, however, a real worry abroad that the United States, beset by internal problems, will again retire into its isolationist shell and forego further adventures in international political and financial philanthropy.

Coming home, one is amazed at the extent of the change in the American intellectual climate. Hope has been replaced by an unhappy, doubting distrust.

"I'm doing all right now," many friends have told me, "but I don't know what lies ahead."

In housing, clothing, and excellent food, with meals planned by experts on food nutrition. Recreation and entertainment facilities and religious guidance in all faiths are available at all Army posts and stations. The Regular Army man has every opportunity to become physically, spiritually, and morally "The Healthiest Man in the World."

Twenty and Ten Years Ago

Nov. 13, 1926—Peekskill defeated Kingston High School at football here by score of 16 to 6.

Kingston High School cross country team defeated harriers of Troy High School at cross country run here.

George H. Goudy of Highland and Miss Mildred H. Ritz of Maywood, Ill., married in the home of the bride.

Mrs. A. Ray Powley, Mrs. Harry P. Van Wagenen and Mrs. Grover Lasher returned home from Birmingham where they attended state convention of Federated Women's Clubs.

Nov. 13, 1936—Freezing temperatures continued to prevail in Kingston.

Harold V. Clayton named as trustee of Kingston Savings Bank to fill vacancy caused by death of Frank W. Brooks.

# "At Century's Turn"

By H. L. VAN DEUSEN

Acting under the provisions of the amendments to the city charter, Mayor A. Wesley Thompson on May 17, 1906, appointed an entire new setup in the city's aims board naming Henry H. Pitts, William H. Kolts, William Sahloff, Fred J. Walter, Israel H. Snyder, Theodore Weeks and Charles C. Lang to serve as members of the board.

Commissioners Forst, Fredenburgh, Messinger and Quigley, who had been serving as aims commissioners, were dropped.

Ten days prior to the mayor's action the aims board on May 7, had held the annual meeting and elected William H. Kolts as president, succeeding Walter S. Fredenburgh, and appointing Gus C. Rundel to replace Harry C. Smith as superintendent of the aims house.

Mr. Smith, who was a Democrat, had been appointed superintendent during the administration of Mayor Morris Block.

The mayor also, on May 15, of that year, appointed Alderman J. Charles Snyder as president of the Common Council. This act was under authority granted the mayor by a bill that had passed the state legislature that year empowering the mayor to make an appointment when the council was deadlocked over the choice of a presiding officer.

In the naming of Alderman Snyder as president of the council, Mayor Thompson broke the deadlock that had existed since the first of that year.

Turning for a minute to school affairs on May 11, 1906, pupils of old Ulster Academy presented the comedy "An Amateur Dramatic Society" in the school hall for the benefit of the Athletic Association of the school.

Among those in the cast were Louise Demgen, Mabel Baisden, Edna Johnston, Raymond Marsh, Alton Scharsch, Oscar A. Moore, and W. D. Gross.

Ulster Academy that year had a fast baseball team with Ormerod Twining and Vogt behind the plate. Others on the team were Tongue, Lang, Smith, Moore, LeFevre, Stock, Gross and McEntee.

Fire on April 18, 1906, destroyed the New Paltz Normal School in New Paltz with a loss estimated at \$100,000.

The school was closed for the usual Easter holidays, and there was no loss of life at the fire which was caused by an exploding lamp.

The Normal School prior to the fire could accommodate 350 students.

With the burning of the big school every effort was exerted by the citizens of the village assisted by well known men of Kingston to have the school rebuilt.

Their efforts met with success. Reuben Reynolds, well known business man, died in his home on Smith avenue, on May 9, 1906, aged 69 years. Mr. Reynolds came to Kingston with his parents when he was 10 years old, and learned the tinmith's trade with H. G. Shook. Later he was associated with James Griffiths until 1862 when he purchased the Griffiths' business and continued in the store and tin business until he retired a few years prior to his death.

Mr. Reynolds was active for years in local politics and served for several terms as an alderman.

Another well known man who died May 13, of that year, was Captain Charles H. Post, widely known Hudson river steamboat man, with his home on Abel street.

Captain Post for 40 years had been in the employ of the Cornell Steamboat Co., and prior to his death was in command of the tug P. C. Ronan. He also at one time commanded the tug H. T. Caswell.

The first nickel-bearing coin issued by the United States was the small cent authorized by act of Congress in 1857.

# Today in Washington

Three Big Influences May Be Brought to Bear to Prevent Strikes in 1947

By DAVID LAWRENCE

Washington, Nov. 13 — Three major influences may be brought to bear in 1947 to discourage another wave of strikes.

First, the Republican Congress will vote a decrease in individual income taxes of about 20 per cent. This is announced by Speaker-to-be Joseph W. Martin.

Second, prices of food will show a considerable drop next year and the cost of living will be diminished below its present high level.

Third, the necessity for overtime in those skilled trades and industries which are to be given a chance to operate in full production will materially increase the amount of take-home earnings for millions of workers.

The biggest single impetus to production has resulted from the removal of virtually all price controls. The average man unfamiliar with the intricacies of the economic system can scarcely realize the extent to which price controls were retarding production in America. So long as there was a chance of eventual decontrol, prices could not be stabilized. Now, with controls lifted, prices can be fixed for indefinite periods—or at least until the full impact of demand is ascertained.

Prices are always a matter of testing markets. But when the ceilings imposed by government do not cover costs, a virtual strike takes place and production lags. The damage in the recent situation was that price controls were on the way toward removal, and most producers knew it, so there was no opportunity to plan ahead.

The President's statement says very rightly that it is impractical to retain controls on articles when certain ingredients are without controls. Also he might have said it is impossible to control prices if wages are not controlled, too. Since the wage stabilization policy broke down, it was inevitable that price controls would be eliminated as well.

So the American economy now faces a period of reconversion and readjustment which should have begun last spring. Whatever may be the merits of the labor situation, the fact remains that the administration policy of asking management to absorb high costs and refusing permission to increase prices except after a lot of red tape did not result in stability. Management had to accept

the challenge of strikes which might have otherwise adjudicated on an equitable basis had it been able to plan ahead with reference to prices and production schedules.

Union leaders, for the most part, know that a Republican Congress will not be extreme in its handling of labor problems so that it will insist on fairness of both sides in collective bargaining. Union leaders, therefore, will not try a series of strikes and demands merely to add to management's costs irrespective of the profit situation that may prevail. First of all, the cost-of-living argument will not be persuasive when the prices of food begin to decline. Secondly, a reduction of 20 per cent in federal income taxes will mean an increase in purchasing power for the millions of citizens who have been paying high taxes.

Thus, for instance, every citizen knows that his withholding tax is around 20 per cent. If some of that can be retained by the individual, it means an automatic increase in wages amounting to many billions of dollars to the nation's workers. For the thrifty, this will mean added savings. For those who have not been able to make ends meet, it will mean a household budget that can be balanced.

The problem of reducing taxes by 20 per cent turns on what kind of governmental economies can be applied. It would not be surprising if the whole Social Security taxes were re-examined. Originally the law contemplated the investment of current payments in government bonds. There are some who believe that the government could carry out of current revenues the burden of payments to the beneficiaries of Social Security each year. This is but one aspect of the tax situation out of many which will be re-examination.

The truth is that the Republican Congress will not be deterred by left-wing handicaps or social planning and will endeavor to put the nation's fiscal affairs on a balanced basis so that lower tax rates may mean increasing revenues for the government. This philosophy of taxation was followed in the 1920's and the budget yielded a surplus out of which the federal debt was materially reduced. (Reproduction rights reserved)

# STAMPS in the NEWS

AP Features

Honduras becomes the tenth foreign nation to honor the late President Roosevelt by picturing him on its postage stamps. The Central American republic has just issued an eight-cent postage stamp showing a medallion portrait of Mr. Roosevelt beside a truncated stone column.

Two inscriptions appear on the stamp. One, beneath the stone column, translates "F. D. R. April 12, 1945. Honduras's Homage to the Great Statesman." The other, appearing above the central design, reads "Day of Allied Victory over Japan." The stamp is one of a set of eight new air mails. The designs of the other stamps picture the Honduran coat of arms and those of Spanish

issue, reported by J. and H. Stolor of New York, consists of: 5 kopeks Church of Ivan the Great; 10 kopeks theatre; 15-k Hotel Moscow; 20-k Sverdlov Square; 45-k the Kremlin; 50-k Central Museum; 60-k Red Square and another design of Minno and Postcharek. Values of the tank stamps, issued to honor tank divisions of World War II, are 30 and 60 kopeks.

New airmail issues now on the stamp markets include a four-stamp Lebanon set showing three large birds in flight and a 10-cent brown stamp of Ecuador picturing Mercury and a feminine figure. Aéro Philatelists Inc. report that China has issued a new \$270 stamp showing a plane in flight.

colonial provinces which make up Honduras.

Argentina, Greece, Haiti, Liberia and Nicaragua also have issued memorial stamps in honor of Mr. Roosevelt. Brazil, Colombia, Guatemala and Turkey pictured him on their stamps before his death.

Collectors of Roosevelt memorial issues, incidentally, may be interested to know that 10 plate varieties have been found in sheets of the Argentine stamp. Originally reported by the Journal of the Centro Filatelico de la Plata of La Plata, Argentina, the varieties were checked by the Pan American Union's Philatelic Section in Washington and found to be correct. They include incomplete letters, broken and re-touched borders and joined letters. Most of them are readily visible to the unaided eye, according to the Pan American Union.

Poland has added a number of colorful stamps to its postwar issues. A 3 plus 12 zloty pair tribute to postal employees of the city of Gdansk (Danzig) and features a postman at salute over the prostrate body of a postal employee who was a war casualty.

A five-zloty stamp pictures the Bedzin castle, while a six-zloty portrays Henry IV (1056-1106), German emperor who had himself crowned head of the Holy Roman Empire in 1084.

Russia has released two new sets of stamps—an eight-value set showing buildings in Moscow and two stamps picturing tanks on Red Square in Moscow. The scenic

bear the date "1945-17 de Octubre 1946." Values and colors are: centavos; violet; 10-cent green; 15-cent; 50-cent brown and one-peso centavos.

Two more South American nations have followed Mexico's lead by issuing stamps to publicize campaigns to eliminate illiteracy. Ecuador has released six stamps and five airmail stamps. Guatemala issued a one-centavo postage stamp to raise funds for its campaign.

Ecuador's stamps call attention to its "Campana de Alfabetizacion de Adultos" or campaign to eliminate illiteracy among adults. Regular postage stamps picture a teacher and an adult pupil in a classroom. The airmail stamps feature the letters "UNP" for "Unidad Nacional de Periodistas" (National Union of Newspaper Writers) which aided in the campaign.

Guatemala's stamp shows a native man looking at a book on which is written "A B C 123" —George A. Scott

Virginia Flights Fever

Richmond, Va., (AP)—Rocky Mountain spotted fever is the latest but Virginia in the Appalachian had the most cases in the past last year—93. Health authorities are distributing vaccine against the disease and warning people to check for skin eruptions occurring after visits to woods or grasslands, for they may be from the wood tick that spreads the ailment. The fever waits four hours after biting before shooting germs into the blood. About one case of the disease is fatal.

Both New Jersey and Rhode Island call the violet blue flower.

# 47 Ways to Tell If Man Is Drunk

Billings, Mont.—Billings police are instructed to consider these questions in deciding whether a person is drunk:

Does his breath have an odor of alcohol? Is it faint, moderate, or strong?

Is he partly dressed or unclad, or is his clothing dirty, reserved, or is he polite, excited, reserved, hilarious, talkative, insulting, combative, stupefied, delirious, silent or dull?

Is he hiccupping, belching,

drooling, punching, kicking, fighting, sleeping, in convulsions or unconscious?

Are his eyes normal, watery, bloodshot, roving, downcast, or glassy?

Is he swaying, wobbling, sagging, falling or unable to stand? Is his speech fair, slurred, stuttering, confused, incoherent, whispering or jerky? How is his enunciation?

Can he touch his finger to his nose?

The flashing colors of opals lie not in the stones themselves but are caused by the interference of light through reflection.

## Flour Enrichment

Sixty years ago millers began to tear wheat apart between corrugated steel rollers. This milling separated the outer coating of the grain and the wheat germ from the starchy sections. Without these parts the flour was whiter and finer and had better keeping qualities, but much of its valuable nourishment was lost. No humans. Enrichment gives back to bread some of the important values that have been lost in milling. This process increases the thiamine in white flour seven times, the riboflavin about eight times and niacin and iron about four times.

## TB Seal Sale Group Poses

Former lamplighters who have joined the drive for the sale of Christmas TB seals recently posed with committee members in charge of the project. Left to right are Augustus P. Modjeska, chairman of publicity committee; Peter B. Keller, who lighted lamps from site of TB Hospital to Abel street in 1888; Harold Barton, Ulster Park, who took care of lamps in Lancaster, Pa.; Edward C. Klotke, who lighted lamps from the TB Hospital to Bruyn avenue in 1889 and Edmund P. Rochford, chairman of Christmas seal sale which opens November 25. (Freeman Photo)

## Volunteers, Girl Scouts Assist In Mailing of Christmas Seals

Preparations for the mailing of Christmas Seals to residents of Ulster county was in full swing again this week when several individual volunteers and the Girl Scouts of St. John's Church, Troup No. 5, met at the headquarters of the Ulster County Tuberculosis and Health Association at the county building to assist with details of the work.

The seals, sold annually to support the health program of the tuberculosis association, will be mailed to reach residents November 25, opening date of the nationwide 40th annual Christmas Seal Sale. The sale will extend through Christmas.

The scouts who met at the headquarters Saturday volunteered their services, "because we want to help the association which is helping us so much by making this a healthier community in which to live," as Mrs. Albert Kurdt, leader of the Girl Scout troop said.

### Greatest Scourge of Youth

"We know that the tuberculosis association has accomplished wonders in advancing the control of a disease which kills more young people between 15 and 35 than any other disease," she continued. "We want to be sure that it continues its work lest tuberculosis

become an even greater threat than it already is. We know that the continuation of the association's work depends upon a successful Christmas Seal Sale and so we are only too glad to do what we can to help with preparations for the sale."

At present, the volunteers are engaged largely in filling envelopes addressed to local residents.

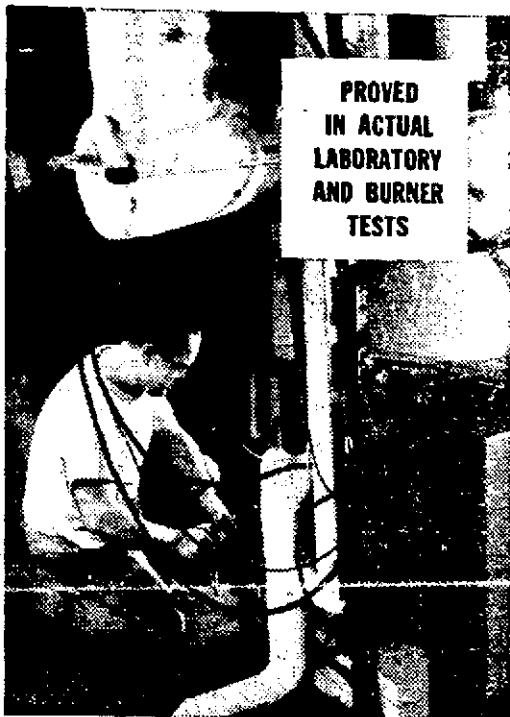

### Grizzlies on Rampage

Kalispell, Mont. (AP) — Aroused by three recent attacks on human beings by grizzly bears in northwest Montana, the Kalispell Daily Interlake is advocating repeal of trapping laws that protect the grizzlies. One bear mauled a camper before it was killed by a rifle bullet. Another chased a forster into a tree and tore off his shoes. A small dog saved two hunters from a grizzly by diverting its attention after the bear had attacked one of them. The dog was killed by a blow from the bear's paw.

YOU CAN'T BEAT OIL HEAT ... Clean ... Cheap ... Automatic

## Mobilheat Tops on Every Count!

- ★ Mobilheat is hotter than ever before—contains more heat units in every gallon!
- ★ Mobilheat is a balanced fuel with the right amount of quick-igniting and high heat fractions.
- ★ Mobilheat is clean two ways—it arrives clean, it burns clean.
- ★ Mobilheat customers get a uniformly high quality fuel that assures smooth, progressive vaporization. Mobilheat means top burner performance. It's oil heat at its best!

A Mobilheat Contract Solves Your Winter Heating Problem!

# The Flavor's All Yours

when you smoke  
**PHILIP MORRIS**

**CLEAN, FRESH, PURE**  
**America's FINEST Cigarette!**

Of course the flavor's ALL yours—and here's why!

There's an important difference in PHILIP MORRIS manufacture. This difference makes PHILIP MORRIS outstandingly better to smoke—because it lets the FULL FLAVOR of the world's finest tobaccos come through for your complete enjoyment—clean, fresh, pure!

That's why PHILIP MORRIS taste better—smoke better—all day long. No wonder that with millions of smokers everywhere, PHILIP MORRIS is America's FINEST Cigarette!

*No other cigarette can make this statement!*

Of all the leading cigarettes, PHILIP MORRIS is the only cigarette with an exclusive difference in manufacture—recognized by eminent medical authorities as being to the advantage of those who smoke!

## "For Two Cents, I'd..."

"For two cents, I'd entrust my savings to business. I'd invest my surplus funds in securities ... and share in the ownership, the risks and the rewards of American industry."

This may not be precisely what the investor says, or even thinks ... but it is what he does!

For slightly less than two cents out of the corporate income dollar (U. S. Depart-

ment of Commerce figures for 1945), the American investor provides industry with the funds needed to create jobs and produce goods.

The ability of industry to obtain funds on such a basis is a striking indication of our people's faith in business efficiency ... of their confidence in the future of our business enterprise.

### MARKET PLACE FOR INVESTORS

This Exchange is an essential part of the financial mechanism which puts the people's savings to productive use. Countless investors entrust their surplus funds to business enterprise only because they know there is always a ready market for their securities. To those who use its facilities, the Exchange offers this advice: Do not invest your money in securities, or any other form of property, until you have the facts—all the facts. Tips and rumors have no place in a sound investment decision.

NEW YORK STOCK EXCHANGE

# PHILIP MORRIS

ALWAYS BETTER - BETTER ALL WAYS

He was a rancher in northern Wyoming, augmenting his income by taking a few dudes for the summer. On a pack trip back into the mountains, he said to one of his buddies:

Rancher—This atom thing sometimes gets me down. I can picture the ranch buildings wiped out, and all of Sheridan (the nearest town) gone. Then I come out here into the mountains, and my tears leave me like flies at snowtime. I look at these mountains and I know that here, nothing can hurt me, not even the atomic bomb. Kind of odd, isn't it? But that's the way I feel.

A long, long time ago, someone else felt the same way. "I will lift up mine eyes unto the hills," he wrote, "from whence cometh my help."

A man called on the optician to have his eyes tested. Optician (holding test card 40 feet away)—Can you read that? Man—No. Optician (coming closer)—Can you read it now? Man—No, I can't. Optician (finally sticking the card under the man's nose)—Well, can you read it now? Man—No, I never learned to read.

About the only thing a lot of people are looking for is an excuse to evade responsibility.

Politician—My son says he would like a job in your department. Official—What can he do? Politician—Nothing. Official—That simplifies it. Then we won't have to break him in.

And speaking about politicians, following is from the Brushville Bugle:

"Bill Smathers has two sons. One is in politics and the other isn't much good either."

Just as a man rips, so must his wife sew.

Junior—Dad, what is political? Dad—It is a lot of crust with applesauce and plums.

The Real Salesman One who has a steady eye, a steady nerve, a steady tongue and steady habits.

One who understands men and who can make himself understood by men.

One who turns up with a smile, and still smiles if he is turned down.

One who is silent when he has nothing to say, and is also when

THEY'LL DO IT EVERY TIME (Registered U. S. Patent Office)

One is in politics and the other isn't much good either.

# Says Housing Crisis Up To Federal Officials

Albany, Nov. 12.—Responsibility for the housing crisis rests with federal officials whose system of controls have strangled the production of building materials and equipment, and have driven the cost of home building beyond the means of most veterans and other home-seekers, Herman T. Stichman, New York state commissioner of housing, asserted today in an address before the annual convention of the State Federation of Women's Clubs at the Hotel Ten Eyck.

Speaking on "Housing—The Effect of Present Controls on Our Future Living Conditions," Commissioner Stichman attributed the existing stalemate in new home construction to federal controls of prices and of building material production. He warned that continuation of unreasonable federal controls may postpone advances toward better living for at least a generation. What few homes are being built under federal rules, he added, in many cases are liabilities in terms of living conditions since, in an effort to economize, inferior materials are used and

building lot sizes are reduced. He called for the immediate relaxation of federal controls to permit production of materials and the building of homes. "This will not interfere with any veterans' home building program," he declared, "since homes today are being built for so few. Instead it will aid, as the veterans' priority should be continued."

"Our veterans should not be coerced," he continued, "into buying jerry-built houses at inflated prices, when what they really seek are rental units. If the building of homes is encouraged under reasonable controls, the increased provision of housing that will result will be of inestimable value to veterans."

Commissioner Stichman analyzed the history of the housing crisis and reviewed New York state's role in providing permanent low rent housing as well as emergency housing and expanded educational facilities for veterans and all students desiring college instruction in the state. He spoke of the state's community development program by which entire neighborhoods can be rebuilt through the cooperative efforts of private builders, municipalities and the state.

He also reviewed the state's role in providing permanent low rent housing as well as emergency housing and expanded educational facilities for veterans and all students desiring college instruction in the state. He spoke of the state's community development program by which entire neighborhoods can be rebuilt through the cooperative efforts of private builders, municipalities and the state.

To remove rust from refrigerator shelves, clean them first with a mild scouring powder and hot water, then cover them with a thin coating of paraffin.

## "UNBLOCK" your DIGESTIVE TRACT

And Stop Dosing Your Stomach With Soda and Alkalizers

Don't expect to get real relief from headache, sour stomach, gas and bad breath by taking soda and alkalizers if the true cause of your trouble is constipation.

In this case, your real trouble is not in the stomach at all, but in the intestinal tract which is all but paralyzed. And when the lower part of your digestive tract is paralyzed, the food you eat will not be properly digested.

What you want for real relief is something that will clean out your digestive tract, get your bowels moving again, and help nature to clean it out effectively—help nature to get back on her feet.

Get Carter's Pills right now. Take them as directed—they gently and effectively "unblock" your digestive tract. This permits all food to be properly digested and absorbed. You get genuine relief from indigestion so you can get really good again.

Get Carter's Pills at any drugstore—25¢. "Unblock" your intestinal tract for real relief from indigestion.

## Bruhn Commends Probation Society For Juvenile Aid

Says Association Deserves Financial Assistance to Continue Its Program

"Experience in local courts, as well as statistics collected by the Federal Bureau of Investigation show a rise in offenses against the law, particularly among young men and boys of the 17 through 20 age group," according to District Attorney Louis G. Bruhn, who today called for all-out support of the National Probation Association.

"Many of the youngsters who are now being brought before the

courts," continued Mr. Bruhn, "can be saved from criminal careers if they are given proper treatment at this crucial period in their lives. Unfortunately, our courts, probation and parole departments are, in many localities, unprepared to meet this need in their caseloads."

Studies conducted by the National Probation Association in cities throughout the country show that almost nowhere do the probation and parole departments have sufficient staff equipped to give modern scientific treatment to those who are brought before the courts because of law violations.

The National Probation Association works in conjunction with local authorities throughout the country in the development and improvement of probation services and juvenile courts to help our American boys and girls to become better men and women for the future. There never was a time when this work was more necessary than today.

"The Association cannot carry on this work without support and this can be secured only from those who recognize their responsibilities to assist in the prevention and treatment of crime and delinquency. I commend its services to you and urge that you subscribe as generously as you can so that it can continue this splendid work," concluded Mr. Bruhn.

The National officers of the Association are Roscoe Pound, dean emeritus of Harvard Law School, president; Judge W. Smyth, vice president; Henry DeForest Baldwin, treasurer, and Charles L. Chute, executive director.

Contributions should be sent to Louis G. Bruhn, District Attorney, Court House, Kingston, N. Y.

## U.S. May Free Grain From Controls, Due To Record Harvest

Continued from Page One

of sweet potatoes, apples, prunes, apricots, hops, sugar beets, hay, flaxseed, sorghum grain, buckwheat and dry peas.

The yield per acre and production of major New York state crops included:

CORN—39 bushels per acre and production 28,569,000 bushels.

BUCKWHEAT—19.5 bushels per acre and production 2,000,000 bushels.

DRY BEANS—1,250 pounds per acre and production 1,362,000 bags of 100 pounds.

APPLES (production only)—15,390,000 bushels.

POTATOES (Long Island)—320 bushels per acre and production 22,080,000 bushels; upstate 180 and 18,540,000.

The yield per acre and production of major crops by other states included:

CORN, Pennsylvania—43 bu. per acre and production 58,824,000 bu.

BUCKWHEAT, Pennsylvania—21 bushels per acre and production 2,457,000.

TUBACCO, Massachusetts—1,575 bushels per acre and production 10,868,000 pounds; Connecticut 1,428 and 25,995,000; Pennsylvania—1,560 and 57,717,000.

APPLES (production only), New Jersey—2,310,000 bushels; Pennsylvania—9,360,000 bushels.

POTATOES, Maine—335 bushels per acre and production 70,325,000 bushels; Pennsylvania—132 and 20,976,000; New Jersey—260 and 13,600,000.

Couldn't Wait, Dies

New York, Nov. 13 (AP)—A man tentatively identified from papers as Edward Maloney, 50, of West End, N. J., was killed early today when he fell 15 feet down an elevator shaft at a downtown hotel.

Police said that a woman companion told them that the victim became impatient when the elevator for which he had rung did not appear, pried open the door, and fell down the shaft. Police said that the elevator was out of order.

A total of 75,562 slot machines in the United States were reported in 1945.

The Atlantic to the Mediterranean. Fishing and boating and sailing racing and gliding at Nantucket proved interesting as did the underwater pictures of sea life in the Bahamas. Actual strikes of giant Marlins and tunas were featured in Cat Cay in the Bahamas and the shots were taken from a ship that had been sunk by prohibition runners. Mr. Coty said he made a last exit when a giant barracuda approached.

Other subjects covered were bass and musky fishing in Algonquin Park; ruffed grouse hunting amidst the blazing autumn foliage of New Hampshire and Vermont and spectacular jumps by professionals like Sepp Ruspsh, European champion and America's famous Art Devlin.

## Hollander Wants State to Take Over All Its Colleges

Saratoga Springs, N. Y., Nov. 13 (AP)—State subsidizing of colleges is urged by a New York educator, while a C.I.O. union official calls for the state to "take over every existing college."

The proposals were made last night at a round table discussion of the fourth annual convention of the New York State Citizens Council.

Dr. Alvin Johnson, president emeritus of the new school for Social Research, suggested that the state subsidize a college for every community which annually has 200 high school graduates within a 10-mile radius. He said the community should share in the financing of the colleges.

Louis Hollander, president of the State C.I.O. Council, asserted that higher education was a problem for the state, rather than the community.

"Economic discrimination should be removed," he said. "College education should come as a continuation of the public school system. The only way to insure this is for the state to take over."

## Dad's Nightmare Is Fatal to His 3-Year-Old Girl

Arkadelphia, Ark., Nov. 13 (AP)—Victim of a nightmare in which her father dreamed he was having a fight, three-year-old Linda Joyce Pollard, died under the hall of his blows early Tuesday, Sheriff W. T. Millock reported.

The father, Willard Pollard, 25, told the sheriff and a coroner's jury that in the dream he found himself trying to ward off attackers, but that he remembered nothing else. When he awoke, he said, he was standing over the battered body of his daughter.

The child's skull had been fractured and her right hip broken. Mrs. Pollard, who slept in the same room, did not awaken.

The coroner's jury took no action but at the suggestion of a physician consented to have Pollard placed under observation at a state or private hospital. Relatives said Pollard had been a victim of sleep walking for years and was injured 18 months ago in a dynamite explosion while blasting stumps.

## Agar Says Pressure Should Be Enough To Prevent Wars

Albany, Nov. 13 (AP)—Economic pressure exerted by the United Nations should be sufficient to prevent war, says William Agar, special assistant in the U. N. Public Information Department.

Agar told 700 delegates to the 52nd annual convention of the State Federation of Women's Clubs last night that the security council was empowered to invoke economic sanctions which shortly would discourage a belligerent nation.

Agar said an economic blockade would work because "no means is self sufficient."

State Housing Commissioner Herman T. Stichman called for an immediate relaxation of restrictions on building materials by the federal government.

He told the convention that "good living" for Americans might be delayed a generation by continued control of consumer goods.

## Ambush Bomb Patrol

Jerusalem, Nov. 13 (AP)—Attackers described by police as Jewish Extremists today ambushed a police dawn patrol, which daily combs railway lines for bombs, blasting its ramshackle hand-propelled trolley and killing all six officers aboard. The "suicide patrol," which was instituted two weeks ago when Irgun Zvai Leumi said it was launching an anti-railway drive was ambushed at Beit Safafa on the outskirts of Jerusalem.

## Annual Dinner Thursday

Members of the Ladies' Helping Hand Society will celebrate their annual dinner Thursday afternoon at 1 o'clock in the lodge rooms corner Broadway and Brewster street. The regular meeting will follow.

## Dental Society Meeting Here

Dental X-Ray Technique and Diagnosis Topic of Dr. LeRoy Ennis

Monday, November 11, an afternoon and evening joint meeting of the Third District Dental Society of the State of New York and the Ulster-Greene Dental Study Club was held at the Governor Clinton Hotel.

This meeting was dedicated to the memory of Dr. W. R. C. Morton, a dentist who made the first successful public demonstration of ether anesthesia, a century ago on October 16, 1816 at the Massachusetts General Hospital in Boston.

The clinician of the day was Dr. LeRoy Ennis, professor of Roentgenology at the Thomas W. Evans School of Dentistry, University of Pennsylvania. Dr. Ennis' subject was "Dental X-Ray Technique and Diagnosis."

"Dr. Ennis is recognized as an authority, both here and abroad, in his specialty, and his clinic proved very interesting and instructive."

Over 75 dentists from Kingston and this section of the state attended the meeting.

## Economists See Recession Delay

Continued from Page One

eral spending and thus make the government stop its inflationary course of pouring out more money than it takes in.

This effort will go forward—especially with a Republican Congress bent on cutting government costs. But now there will be additional inflation anyway, which in turn will produce more tax revenues, which in turn will help the administration make ends meet.

Even if the new Congress cuts tax rates, as some G.O.P. leaders proposed to do, the chances of balance are still good, the official insisted. For one reason, a tax cut would not be felt in reduced revenues for some time after the new rate begins; for another, when national income rises, federal revenue goes up in direct proportion but federal expenses do not.

On the score of a business turn down, which many economists and others have predicted for next year, authorities say Saturday's decontrol is virtually certain to delay it. They reason that so long as price trends are strong, merchants will tend to lay in more inventory and keep factory wheels turning.

However, the consensus is that the death of price control will make a recession more likely to come ultimately. With prices of many commodities going up, consumers are likely to delay starting of new homes and buildings. Therefore, the construction industry may not be ready to go at full speed in keeping payrolls and employment high when factory activity slopes off.

Benjamin Franklin originated daylight saving time.

## Thank God For Muscle-Rub!

Writes Mr. Robert Jordan, Colon, Mich.

Advises every sufferer from Rheumatic-Arthritic-Sciatic-Neuritic Pains to try Muscle-Rub.

Here's the true story of a man who took treatments, used all kinds of remedies for his sciatic, neuritic pains without being helped in the slightest degree. Mr. Robert Jordan of Colon, Mich., suffered agony from pains in his hip-knee-calf of legs. The pain at times was so bad that he couldn't sit down. He tried several different treatments, many different medicines, all of which did him no good. He couldn't work. Life was misery for him.

Then one day he saw an advertisement of Muscle-Rub—the doctor's prescription—and in desperation bought a bottle. He used it as directed and in 3 days the pains were relieved and Mr. Jordan was back on the job.

No wonder he advises every rheumatic sufferer to try Muscle-Rub for fast pain relief. Get a bottle today at all good drug stores.

Remember, Muscle-Rub is sold on this money back guarantee. If only half a bottle doesn't bring relief your druggist is authorized to return your money.

**Milners' Baby Dies**  
Hollywood, Nov. 13 (AP)—A baby daughter, born prematurely to dancing actress Ann Milner and her husband, Reece, died yesterday of a few hours after birth. The actress, who a condition was described as satisfactory, was injured slightly several days ago in an automobile collision.

**Winter Weather's on the Way!**

Here Are Oldsmobile's Recommended COLD WEATHER SERVICES

- CHECK COOLING SYSTEM**—The radiator and entire cooling system should be drained, flushed out, and thoroughly inspected. Hose connections should be tightened where necessary.
- INSTALL ANTI-FREEZE**—Sufficient anti-freeze should be put in to protect your car from a damaging freeze in even the coldest weather that can be expected.
- TUNE ENGINE**—Your motor should be put in shape to assure you of quick, easy starting, and economical performance no matter how low the thermometer goes.
- CHANGE ENGINE OIL**—A lighter oil that will circulate freely at below-freezing temperatures is a necessity for easy starting and the prevention of excessive winter wear.
- LUBRICATE CAR**—The entire chassis should be scientifically lubricated to prevent wear. The lubricants in standard transmission and differential should be changed to a winter grade. Hydra-Matic Drive fluid need not be changed unless necessary.
- CHECK ELECTRICAL SYSTEM**—There's a heavier load on battery, generator, starter and ignition system during cold weather. These should be inspected, put in good condition, and protected with a coating of PIB.
- CHECK SAFETY FEATURES**—Brakes should be adjusted and put in top-notch condition. Windshield wipers should be checked. Heater and defroster connections should be inspected.
- PROTECT FINISH**—Snow and ice and road-clearing chemicals are tough on the finish of your car. A wash and polish, or a Liquid Glaze job—and or a Liquid Glaze job—and touch-up treatment—will protect both paint and chrome.

**Oldsmobile SERVICE**

If You Have a New Oldsmobile on the Way—

Materials shortages and unavoidable production delays are keeping our deliveries behind schedule. Better keep your present car up with regular service... until that style-leading new Oldsmobile arrives!

### Two Awards for Garden Club Members Next Year Announced at Final Meeting Tuesday Afternoon

The announcement of two awards to be given in the 1947 club year was made at the final meeting for the season of Ulster Garden Club Tuesday afternoon at the home of Mrs. John W. Matthews in Richmond Park. Edward Coykendall will give an award in memory of his wife, Isabel Hutton Coykendall, for the best garden executed by a member of the club. G. V. D. Hutton will give an award in memory of his aunt, Eleanor Hutton Washburn, to the member having the most points for floral arrangements in competition in the club as well as floral exhibits outside.

Mrs. G. V. D. Hutton presided at the meeting at which several plans were presented for the club's activities for the 1947 season. She also announced the following committees: Membership, Mrs. Robert R. Rodie, chairman; Mrs. G. Wallace Codwise, Mrs. Theodore Oxholm, Mrs. C. Victor Livingston, Mrs. Harold King, Mrs. Jay LeFevre and Miss Isabel Overbaugh; conservation, Mrs. Howard A. Lewis, chairman; Mrs. William Hasbrouck, Mrs. Carlton Preston, Mrs. Allan L. Hanstein, Mrs. William Warren, horticulture, Miss Katharine Hasbrouck, chairman.

### Benedictine Auxiliary Hears Miss Smith's Talk on Folklore

The Ladies' Auxiliary of the Benedictine Hospital were entertained by Miss Agnes Scott Smith at their meeting last Wednesday evening. She chose as her topic "Folklore of Ulster County," and told many interesting and humorous tales of the immediate vicinity.

Mrs. Victor Ruzzo, chairman of the nominating committee, announced that the slate of officers for the year of 1947 had been chosen and would be elected at the December meeting.

Mrs. J. Haviland Barley; Mrs. Joseph T. Reis and Mrs. Herbert J. Davis were accepted as new members.

Mrs. Allen A. Baker, president, announced that the annual Christmas Tea will be held December 4, at 3 p. m. in the Nurses' Home. The auxiliary will again decorate the hospital for the holiday season. The decorating committee is headed by Miss Anne Campbell, honorary chairman and Mrs. James W. Millard, general chairman.

A social hour was enjoyed at the close of the meeting and refreshments were served by Mrs. Bart J. Dutton and Mrs. Harry Houghtaling.

### Card Parties

**Esopus Mothers' Club**  
Mothers' Club of the Esopus School will hold a card party Thursday evening at the fire house. Games will start at 8:15 p. m. Refreshments will be served. The public is invited.

**Card Party Tonight**  
The Girls' Friendly Society of Holy Cross Church will hold a card party tonight at the parish hall at 8:30 o'clock.

### Club Notices

**Child Study Club 1**  
Kingston Child Study Club No. 1 meet tonight at the home of Mrs. Sanford Gross in Kyserville at 8 o'clock. The topic will be "Civil Liberties." The husbands of the members are invited to take part in the discussion.

### 75th Birthday

  
**MRS. RACHEL WOOD**  
Mrs. Rachel Wood of 112 Wurts street celebrated her 75th birthday November 1 with a surprise party given in her honor by Mr. and Mrs. Warren Wood. Decorations were in pink and blue. Those attending were Mr. and Mrs. Melvin Passer, Sr., Mr. and Mrs. Christopher Dugan and son, Philip; Mr. and Mrs. Raymond Hovers and daughter, Marie; and son, Raymond, Jr.; Mr. and Mrs. William Trinkle, Sr. and sons, George and William, Jr.; Mr. and Mrs. Abram Van Aken and son, Abram; Mrs. Tyler and daughter, Olive; and son, Albert.

MISS JANE VAN HOVEN

Mr. and Mrs. Paul H. Van Hoven, 3431 East First street, Duluth, Minn., announce the engagement of their daughter, Jane, to Donald James Mathers, son of Dr. and Mrs. James A. Mathers, 174 Main street. A spring wedding is planned.

Miss Van Hoven is a graduate of Stanbrook Hall, Duluth, Edgewood Park School in Briarcliff Manor, and of Katherine Gibbs School, Chicago. Mr. Mathers was graduated from Rider College, Trenton, N. J., and did post graduate work at Syracuse University.

### Engagement Announced

**Will Marry Alice T. Foray**  
New York, Nov. 12 (Special).—Edward Vincent Klein, a teacher at the Mohonk School, Lake Mohonk, and Miss Alice Theresa Foray, of 1728 Second avenue, New York, were issued a marriage license here today at the City Clerk's Office. The couple did not announce their wedding plans.

Mr. Klein was born in New York, the son of Edward Joseph and Ethel N. Klein. His bride, the daughter of Stephen and Emily Schatkin Foray, also was born in this city.

### Mrs. Mathes Entertains For Doris Van Sickle

Mrs. Ben K. Mathes was hostess at a kitchen shower recently at her home in Lake Katrine in honor of Miss Doris Van Sickle of Port Ewen. Miss Van Sickle will become the bride of Dr. A. A. Seitzman of Passaic, N. J., Thanksgiving Eve.

Guests attending were the Mes. William H. Pretsch, Frank Crosbie, Roger Baer Schwartz, Robert Gregg, William Norton, Vincent Pretsch and the Mes. Marjorie DeWitt and Vivian Hill.

### Rev. Burton Tarr Speaks To Fellowship Guild

Fellowship Guild of the First Presbyterian Church held its regular monthly meeting in Ramsey Hall Tuesday night. The Rev. Burton Tarr, superintendent of the Kingston Methodist District, was guest speaker. He spoke of his experiences as an army chaplain in Labrador.

Afterward a business meeting was held. Plans were made for a card party to be held December 3 at Ramsey Hall. Refreshments were served by Mrs. Fred Stang and Mrs. Theodore Haines.

### St. Paul's Couples Club Meets With the Wikanes, Stone Ridge

The Couples Club of St. Paul's Evangelical Lutheran Church was held last evening at the home of Mr. and Mrs. Harry Wikane. Stone Ridge with Robert Dixon presiding. The card party was reported as a great success.

Among other items of business were the matter of Couples Club attendance at church the second Sunday in December; covered dish supper at the next meeting with a speaker and Christmas party; tentative plans to produce a play after Easter and participation in the church bazaar early in December.

Moving pictures in technicolor were shown by the host. It was entitled, "Three Little Bruins," and was a story of animal and child life. Refreshments were served at the close of the meeting.

### Engagement Announced

Mr. and Mrs. Milton Northrop of East Jewett announce the engagement of their daughter, Miss Joyce Northrop, to Kenneth A. Roth, son of Louis Roth of New Paltz.

### Willing Workers Club

A rummage sale will be held at 13 Hasbrouck avenue Friday and Saturday by the Willing Workers Club of Emanuel Baptist Church. Those having articles to donate are asked to call 5168 if it will be necessary to collect them. Those who are able are asked to deliver them to the store.

### Dorothy Swint Becomes Bride of W. J. Wells Sunday at St. Peter's

Miss Dorothy M. Swint, daughter of Mrs. Anna Swint, 18 St. Mary's street, and the late George Swint, became the bride of William J. Wells, son of Mr. and Mrs. Sol Wells, 89 Hone street, Saturday at 3 p. m. in St. Peter's Church. The ceremony was performed by the Rev. Joseph A. Geis.

The bride wore a white satin gown trimmed with seed pearls and fashioned with a long train. Her fingertip veil had a headpiece of seed pearls and she carried white pompons. Her sister, Miss Mary A. Swint, as maid of honor, wore an American beauty taffeta gown with matching headpiece and carried yellow pompons. David Brooks acted as best man for the bridegroom.

A reception was held for 50 guests at the home of the bride's mother. Afterward Mr. and Mrs. Wells left for a wedding trip.

Mr. Wells, an army veteran of World War II, is employed by the New York Central Railroad.

### Vernon J. Smith Marries Miss Eleanor Perry

Announcement is made of the marriage of Miss Eleanor Perry, 72 Broadway, to Vernon J. Smith, 67 East Strand. The ceremony was

### PERSONAL to WOMEN

Here's great news for wise women who doubt! Lydia E. Pinkham's SANITARY WASH now offers you an effective "bacteriostatic" touch which hospital tests have already proved so wonderfully effective for vaginal cleanliness.

Sensitive Wash has been especially developed to check growth of the more vulnerable germs, relieve odor, itching and minor discharge. Festively won't irritate. Has wonderful cleansing, cooling, soothing effect on membranes.

## Home Bureau, 4-H Club Ask Fund

Continued from Page One

lation is passed authorizing such consolidation.

County Clerk Robert Snyder asked that \$750 be appropriated to pay for additional clerk hire during the rush period at the Motor Vehicle Bureau office. Filed. He also asked for \$1,500 to repair books and documents in the clerk's office. Filed.

### Equalization Tables

The table of equalization rates for the county as suggested by the State Department of Taxation and Finance. The rates were identical with those suggested last year except for the town of Hardenburgh which was increased in the table from 40 per cent to 53 per cent. Filed.

The committee on county clerk and surrogate presented claims amounting to \$1,112.51 and recommended that that sum be allowed. Filed. The committee on county treasurer and sealer also recommended bills amounting to \$358.43. Filed. Likewise the committee on tuberculosis hospital and laboratory presented bills in the sum of \$725.26 which were in form for audit. Filed. The committee on town and county accounts recommended that lunacy examination bills amounting to \$650 be audited and that the sums as reported previously be assessed and levied against the town, city or county at large from which the charge arose. Filed.

The clerk of the surrogate's court, H. LeRoy Gill reported fees amounting to \$1,425 had been collected through the office and had been turned over to the county treasurer. Filed.

A report was submitted by S. F. Ten Eyck, county sealer of weights and measures. In most cases measures, scales or packaged goods inspected had been found correct. The report was filed.

A financial statement was rendered by former District Attorney N. Levan Haver and his successor Louis G. Bruhn relative to the \$2,000 fund which is allotted from the court and jury fund for current expenses of the district attorney's office. The account was itemized and showed payments totaling \$1,994.75 and a balance of \$74.25 remaining in the fund as of October 31, 1946.

District Attorney Bruhn also reported he had received the sum of \$100 for bail and a \$200 fine which had been turned over to the county treasurer.

The committee on Bovine Dis-

ease Eradication also reported. The report showed a balance of \$2,999.97 and an appropriation of \$1,000 last year. There was paid out \$2,445.38 and the balance as of November 1, 1946, was \$1,554.59 and it was estimated that it would require an additional \$550 to carry on the work until December 31, 1946. An appropriation of \$2,000 was asked.

The report of the Civil Service was received and filed.

Edmund U. Burhans, chief probation officer, also submitted his annual report in which it was shown that payments through his department for family support had increased considerably. During the past year a total of \$23,862.75 was received for support of families.

### Judge Gives Report

Judge John M. Cushing, judge of the Children's Court, also made his statistical report as well as his report of disbursements from the Probation Officer's Expense Fund. Expenditures were \$486.70 and there remains a balance of \$308.56 in the fund as of November 1, 1946.

An indication of the increased business being transacted at the county clerk's office was indicated by the annual report of County Clerk Robert A. Snyder relative to moneys received during the past year.

For recording of deeds the sum was \$8,963, up about \$3,000 over 1945. For recording mortgages the amount received was \$8,045, up from \$4,890.75 in 1945. For recording documents and papers there was received \$5,237.75, an increase of about \$1,500 over 1945. Docketing judgments and cancelling dockets the receipts were \$215.05, about the same as last year. Copies and exemplifications of papers and dockets \$729, up about \$300. Filing papers and other services \$2,735. The total receipts were \$25,924.80 in 1945 and for 1946 \$17,255.09.

### Mortgage Taxes

In addition to the above there was also received by the county clerk the sum of \$66,003.47, being the net amount of recording tax on mortgages recorded in the office from November 1, 1945 to October 31, 1946. This figure was also up from \$28,500.36 in 1945. From motor license fees the sum received was \$14,097.35, up over \$2,000 from the previous year. From hunting license fees there was received \$1,063.58, slightly up over 1945. Naturalization fees \$219, slightly down and \$44 from passport fees. These sums are retained by the county treasurer as county fees.

In addition to the above amounts there was also received and forwarded by the county treasurer to the state the following sums: Motor license fees \$452,476.78, up nearly \$100,000 over 1945. This is sent to the Bureau of Motor Vehicles at Albany. Hunting license fees \$26,944.13 sent to the Conservation Department. Notary public fees \$1,041, sent to Secretary of State and \$219 for naturalization fees sent to the Department of Justice.

The report was filed.

### Resolutions Are Offered

Resolutions were offered as follows:

That there be raised on the county the sum of \$1,112.51 to pay bills audited by committee on county clerk and surrogate. Over.

That there be levied and assessed on the towns and city and the county at large the sums advanced by the county treasurer for lunacy proceedings and that such sums when raised be paid to the county treasurer to reimburse that fund. Over.

That there be assessed and levied on the county outside the city the sum of \$358.43 for bill audited by the committee on county treasurer and sealer. Over.

That unpaid school tax in the various towns be levied with 7 per cent on lands against which such tax is due and that when collected the moneys be paid over to the supervisor of the respective towns. Over.

That unpaid water rents be levied and assessed against properties against which such charges are due with 10 per cent added and that when paid this money be paid over to the supervisor. Over.

That there be levied and assessed unpaid 11th annual Lloyd sewer assessments with 2 per cent and when paid by property owners the money be paid over to the supervisor. Over.

That Walkkill sewer district assessments remaining unpaid be assessed against the property and when collected the money be paid over to the supervisor. Over.

That the sum of \$725.26 be assessed on county to meet bills audited by the committee on TB Hospital and public health. Over.

Supervisor Harry Snyder offered a resolution that the usual 700 copies of the proceedings of the Board of Supervisors be printed and that bids be sought. Bids will be opened on November 25.

The usual resolution was offered that warrants be issued in payment of county bills.

Several bills were audited and Clerk Simpson announced that the committee of equalization would meet at 3:30 o'clock on November 18. The committee on salaries will also meet that day at the same hour.

The committee on purchase of rights of way was requested to make its report by Thursday and errors and assessments were also sought by Thursday so that report may be submitted at the next meeting of the board. The board adjourned to meet at 7:30 o'clock Friday evening.

## Good Taste Today

By Emily Post

(Author of "Etiquette," "Children Are People," etc.)

### SEALING ENVELOPE

A rigidly definite rule of etiquette governs the following question: "When a note is entrusted to a friend to deliver to someone else, is it true that it must be left unsealed?"

The rule is this: The person to whom the envelope is given should at once seal it in your presence. On the other hand, you should, of course, never give a letter that you would not be willing to have the bearer read.

### Host and Hostess

Dear Mrs. Post: Would you tell me who goes first into a public dining room, the hostess, the host, or a guest?

Answer: The host—if there is one—goes first; if no host, the hostess, until he (or she) meets the head waiter. When the head waiter ushers them to a table, the host, or hostess, stands aside and lets the guests follow the head waiter, with host and hostess following immediately afterwards. If there are many guests, they naturally stop at the table and the host (or the hostess) seats them. In other words, when husband and wife are together, he, not she, takes the initiative.

### Tea Plates

Dear Mrs. Post: Do extra plates for cakes have to be provided at an afternoon tea party, or may the cakes be put on the edge of the saucer?

Answer: At a very small tea, where people sit in a group around the tea table and talk and drink tea, there should be little tea plates. But at a big afternoon tea, where people stand near the dining-room table, they are seldom used, unless one variety of cake is too soft or gooey to eat in the fingers.

### Thank a Stranger?

Dear Mrs. Post: If a strange man stands aside and allows a young woman to go ahead, does she thank him, or is this courtesy to be taken for granted?

Answer: Of course she thanks him! Always thank everybody, everywhere, for any act of courtesy.

Could your manners pass an etiquette test? Send for Mrs. Post's leaflet, "An Etiquette Test," obtainable for a 3-cent stamped, self-addressed envelope sent to her in care of The Kingston Daily Freeman, P. O. Box 99, Station G, New York 19, N. Y.

(Released by The Bell Syndicate, Inc.)

Only 12 circus elephants have been born in captivity in this country since the first was imported in 1796.

FREEMAN CLASSIFIED ADS ARE BARGAIN-HUNTERS

—and you can help  
yourself to  
better  
party-line  
telephone  
service, too

During the past few years, our efforts to meet the abnormally heavy demand for telephone service have been hampered by inability to get new equipment such as switchboards, wire and cables. But now that our factories are again turning out equipment for civilian use, we are working hard to obtain and install the apparatus we need to make the service better than ever. Meanwhile, we are doing our best with the equipment on hand.

But telephone service depends a lot on how it is used by our customers. This is especially true of party-line service where neighborliness plays such an important part. A little thoughtful consideration of the needs of others—a matter of give-and-take—makes party-line service *better* service. And it's so easy to have if all the members of the family—children and grownups alike—will follow these simple suggestions:

1. Be careful not to interrupt a conversation if the line is being used.
2. Try not to tie up the line too long on any one call. Remember, no call, however important, can reach you while your own line is in use.
3. If you must make a series of calls, allow a little time between them so that others on your line may have a chance to phone.
4. Be quick to release the line if your neighbor needs to make an urgent call. You may have to ask a similar favor of him.
5. Always replace your receiver carefully when you finish a call. A receiver off the hook ties up the whole line.

## Readiness Reading Clinic Scheduled In School Case

Temple University Expert Will Address Parents, Teachers Here on Thursday

Dr. Emmett Betts, director of the reading clinic at Temple University, and author of a work on "readiness reading" will be in Kingston Thursday afternoon for a reading clinic with the Board of Education members, teachers of the elementary schools and parents of children who may desire to attend. The clinic will be held at the high school auditorium at 2:30 o'clock.

A grouping plan based on readiness reading was established in the public school of the city this fall in an effort to aid those who may be slow in reading. Objections later were raised to the method by a number of parents and as a result a committee was formed to petition the Board of Education to drop the plan or to suggest some change in the system. That committee, headed by the Rev. Sylvester, has met with the Board and after lengthy discussions it was suggested and recommended by the committee that the plan be dropped until such time as a more comprehensive study could be made and a better plan devised. At that meeting no decision was made by the members of the Board of Education but it was promised that there would be a study made to see whether the system in use here was comparable with systems used in other cities and whether it would be advisable to continue or discontinue the plan here.

As a result of that meeting and to clarify the local situation Dr. Betts, considered an authority in the matter, was invited to come to Kingston and inspect the system and ascertain whether we now have a system which is operating as efficiently as it is handled in other communities where it had worked successfully or whether our system is not properly planned and working well.

It is expected that Dr. Betts will study the system in use here, discuss it with the director and teachers and ascertain facts upon which to make suggestions.

Parents of students of the elementary schools are invited to the meeting Thursday.

## Jack Haulenbeck Heads Reorganized Men's Club

Election of officers was completed at last night's meeting of the Men's Club of the Reformed Protestant Dutch Church, Wall and Main streets. For president the men chose Jack Haulenbeck, who was temporary chairman during the club's reorganization. Roger H. Loughran is the new vice-president. Charles Goble, Jr., is treasurer and Clifford Miller is secretary.

Highlighting the evening's entertainment was Henry Millon's film presentation, featuring Pan-American Airline activities, including a flight over the Hudson River. The film was shown in the club's new room, which was decorated for the occasion. The film was shown in the club's new room, which was decorated for the occasion. The film was shown in the club's new room, which was decorated for the occasion.

Each man had a slip of paper bearing his name pinned to the lapel of his coat, a "get acquainted" feature of the evening. Frank, further rolls, sauerkraut and coffee were served.

## Tojo Takes Full Blame for Death Of 3 U.S. Fliers

Tokyo, Nov. 13 (AP)—Former Premier Hideko Tojo accepted "full responsibility for all of his official acts, including the execution of the Doolittle fliers," Associate Professor John W. Finley said today during a recess in the International War Crimes Trial. Finley said that in 51 separate interviews in January, February and March at Sugamo prison, Tojo "always was genial, sometimes laughing, and quite willing to reply fully to any interrogation about his own acts. But he would not implicate any other defendants."

Of the execution of three of the U. S. Army fliers who bombed Tokyo in April, 1942, with General Doolittle, Finley said Tojo told him:

"That raid—the first of the war on Tokyo—was terrible. We never had anything like that before."

"Tojo told me," the prosecutor related, "he felt something had to be done about the raid and admitted he had ordered passed an ex post facto law under which eight captured fliers were tried and sentenced to death."

The emperor later commuted the sentences of five fliers.

Finley today began introducing Tojo's statements at the trial.

## Russian Reporter Says Americans Are Against War

Moscow, Nov. 13 (AP)—Ilya Ehrenburg, Russian reporter, said in a lecture last night that the average American was too self-confident, but that he was neither mean nor stupid and he "does not want war."

He asserted that "reactionaries" had taken the offensive in the United States but expressed belief that this "triumph of reaction" would not last for long. He said President Roosevelt was a great man, that the average American was politically immature.

He said Wallace understood the interests of the average American, strove to defend them and was not alone. He said men such as Sen. Claude Pepper (D-Fla.) and former Ambassador Joseph Davies and others were with Wallace.

He said he rated American writers highly, praising Ernest Hemingway, William Faulkner and John Steinbeck.

## Nine Defendants Are Arraigned at Session of Court

Continued from Page One

a grand larceny, second degree, charge, alleged to have been committed on September 27. Walter J. Miller appeared for defendant, and a plea of innocent was entered. Bail continued and the case went over until the February term.

Everett L. Grant of Kingston, charged with abandonment on September 13, 1946, pleaded innocent. Bail was exonerated when he told the court he was now living with his family, working and supporting them. Judge Cashin stated what happened between now and February when the case would again come up to a great degree govern the action taken then. Charles Saccoman appeared for defendant. The case went over to the February term.

Adolph M. De Gonzalez, Vincent R. and John E. Marcey were arraigned on grand larceny, second degree charges. They come from New York and are charged with having taken lumber from the Overlook Mountain House on July 15. There was also a burglary, third degree, charge. N. LeVan Haver appeared for the defendants and a plea of innocent was entered to both charges. Bail was continued and the case went over to February.

**36 Cases Called**

The entire criminal calendar of 36 cases was then called and cases were set down for trial dates or for disposition without trial at various times.

Ricardo Manuel Ferro, charged with impairing the morale of a minor in the town of Plattekill, met with difficulty. He is a Mexican and was unable to understand English well enough to plead. Roger H. Loughran who spent several years in Argentina and speaks Spanish fluently was called to aid the court. He translated the court proceedings and defendant said he would like an attorney assigned although he did have some money which he could use to make partial payment. He said the charge was "serious" and he desired counsel. Mr. Loughran was assigned. The case was then put over until November 21 at 10 o'clock when it will be moved for trial.

Norman Gunderud of town of Saugerties, a merchant marine, charged with rape and attempted rape and assault, second degree, alleged to have been committed in town of Saugerties on April 25, appeared by Judge A. J. Cook who had been assigned. A plea of guilty to the assault, second degree, charge was entered and sentence will be pronounced on November 18 at 2 o'clock.

John Bogan had his case postponed until November 14 at 10 o'clock. Francis Martucci appeared for defendant. John J. Henneberry had his case postponed until November 18 at 2 o'clock. Chris J. Flanagan appeared for defendant.

Donald Atkins of Kingston, charged with having entered a downtown store, appeared and the case will be moved for trial on November 20 at 10 a. m. Charles Gaffney appeared for Atkins who is charged with robbery. He is in jail.

**Quick Pleads Guilty**

Granville Quick, Jr., 20, who allegedly was involved in a burglary of the Schecter store entered a plea of guilty to a charge of unlawful entry. It was stated that all he received was \$9.50 and restitution would be made. Elmer H. Nathan appeared for defendant and said he had served the navy and on discharge had enlisted in the army. Sentence will be pronounced on November 14 at 10 o'clock.

Clarence Cook had his case put over to November 14 at 10 o'clock. Francis Martucci appears for defendant. Similar action was taken in the case of Richard William Gerard.

William S. Gray had his case put over to the February term. Peter Harp appeared for defendant. Defendant remanded.

James Blair had his case put over to November 18 at 2 o'clock. Charles Gaffney appeared for defendant.

Kenneth Dudley and James Casey both had their cases moved over to November 18 at 2 o'clock because of the absence of their attorney, Ernest E. Schirmer who was out of town.

The case of Arthur Silverstein was also moved to Thursday at 10 a. m. as was the case of Herman Bronson, charged with having assaulted a Troop at Marlborough last May and the case of Edward A. Haver, who is charged with abandonment.

The case of The People vs. Arthur Greenspan in which Arthur Ewing appears as counsel, Judge Cashin is disqualified and another judge will be required to hear that case.

Harry Albrecht and Eugene Lucas both had their cases moved over until November 14 at 10 o'clock. This case involved entry to an Albee street property.

Thomas Doyle, Jr., represented by Chris J. Flanagan, had his case put over to November 18 at 2 o'clock.

Solomon R. Smith, appearing by N. LeVan Haver, had his case put over to November 14, at 10 o'clock.

Joseph T. Ogden of Shokan charged with illegal possession of a gun pleaded guilty and will be sentenced on November 18 at 2 o'clock. Charles Gaffney appeared for defendant. Bail was continued until that time.

Charles Smith had his case put over to November 18 at 2 o'clock.

## Children Are Hurt In Boiler Explosion

Baroda, Mich., Nov. 13 (AP)—A boiler explosion wrecked one room of a consolidated rural school here today and state police on the scene said at least seven pupils were injured, two seriously.

"One or two more" children may be trapped in the debris, according to reports sent by police radio to Cpl. L. J. Dann at the Pawpaw, Mich., state police post.

Dann said there were 260 to 270 children in the building at the time of the explosion but that most of them escaped injury.

He said the boiler wrecked a first floor room where 15 pupils in the seventh grade were in session.

No fire followed the explosion, Dann said.

All available fire and police-men rushed to the scene. A telephone operator said she feared "a lot of casualties."

**Case Will Be Moved**

William E. Chapman, charged with violation of Section 483-b of the penal law, carnal abuse of a child on August 16, last, was surrendered by his bondsman. Chapman connected with Calico Ranch, at the time, will remain in jail until November 14 when his case will be moved at 10 o'clock for disposition. Elmer H. Nathan appeared for him.

William H. Ferguson, Jr., charged with carnal abuse of a child at Hickorybush last June, also had his case put over to November 14 at 10 o'clock. Francis Martucci appeared for defendant.

Elton DePuy, Jennie Osterhoudt and Harry Osterhoudt had their cases put over to November 18 at 2 o'clock. DePuy and Jennie Osterhoudt are charged with adultery and Harry Osterhoudt with rape, second degree. The cases arise out of a Mettacahts episode.

Michael F. Turk, a robbery and grand larceny charge arising out of an alleged hold-up of a game of craps in the town of Esopus on August 3, had his case put over to November 14 at 10 o'clock. Francis Martucci appeared for defendant.

William McGrath, Kingston, charged with carnal abuse of a child, had his case put over until November 18 at 2 o'clock. Chris J. Flanagan appears for defendant.

Charles Francello's case was put over to November 14 at 10 o'clock. Frank Campochiaro appears for defendant.

William L. Rush of Marlborough charged with assault, first degree, for an alleged shooting during a family difficulty, had his case put over to November 18 at 2 o'clock. His wife, the complainant, now does not desire to prosecute the case.

Storm Nickerson, represented by Peter Harp, had his case moved over to November 14 at 10 o'clock. Carl Rudolph, grand larceny, second degree, had his case moved over to November 18 at 2 o'clock. Robert G. Groves appears for defendant.

The case of Angelo DiStefano was put over until next Monday at 2 o'clock.

Court recessed without a jury until Thursday, November 14, at 10 o'clock and jurors were excused until Monday, November 18, at 2 o'clock.

## Tax Credits May Be Increased to Give Employers Break

Continued from Page One

Legislation that would increase the tax to employers may be as high as 27 per cent.

The New York state plan for unemployment compensation, Mr. Loysen said, provides for a pool in other types of insurance with a reserve fund set up to cover periods of bad business.

Prior to the war, he said, the reserve fund was held at \$300,000, but during the war the surplus was increased to \$900,000,000 and now exceeds one billion dollars. The reason for the unexpectedly large surplus has been greater than anticipated.

During the war the benefits reached a point where all compensation could have been paid by the interest earned by the fund. The reserve fund theoretically was set at four times the previous year's payroll tax. At present it is held that three times the previous year's payroll tax is sufficient to maintain a substantial surplus.

Mr. Whitney explained that there are three ways to determine the employers' amount of tax. Age of the employer in business.

Decline in quarterly payrolls. Decline in annual payroll.

The decline is based on a five-year period.

## Coal Operators Confer With Krug On Coal Outlook

Washington, Nov. 13 (AP)—Leading coal operators conferred for 45 minutes today with Secretary of the Interior J. A. Krug on the outlook for a deal with John L. Lewis to avert a coal strike and return their mines to them, but there was no sign there was any progress.

The bituminous operators smilingly posed for photographers as they left Krug's office following the remarkably brief session, but referred questioners to the secretary.

Krug sent word through a spokesman that he would have nothing to say about the nature of his talks with the operators.

The same policy of silence has been pursued by the government and Lewis since talks started on the United Mine Workers' demand for a new contract and more pay from the government as operator of the seized pits.

A Krug-Lewis meeting, with the U.M.W. chief backed by the negotiating committee, at 2:30 p. m. (E.S.T.) was the next move.

Krug's spokesman said no further meeting with the operators was scheduled at the moment.

## Leonard Heads Police Association For Third Term

At a recent meeting of the Kingston Patrolmen's Association, Edward J. Leonard was elected to serve his third term as president of the organization.

Other officers chosen were: Earl Schoonmaker, vice president; Kenneth Hyatt, secretary; Peter Camp, financial secretary; and James F. Burns, treasurer.

Finance committee—Howard Kinch, Bert Soper and Guernsey Burger.

## The Joiners

News of Interest to Fraternal Organizations

Atharathat Rebekah Lodge will meet Thursday evening at Mechanics Hall, 14 Henry street, starting at 8 o'clock. A public card party will follow the meeting.

At the regular stated meeting of Kingston Chapter 155, O.E.S., Friday night at 8 o'clock in Masonic Temple, Advance Night will be observed. Miss Sadie Feldman, associate matron, will preside. She will honor the present matrons and patrons of Clinton and Kingston chapters. There will be entertainment and refreshments. All Eastern Stars and Master Masons are welcome.

## C.I.O. to Talk Raises

Atlantic City, N. J., Nov. 13 (AP)—Top C.I.O. leaders gathered here today, a bit grim over their political setbacks, but evidently determined to fight for wage increases.

This winter, President Philip Murray, arriving last night, declined comment on the wage question. Some board members, however, showed clearly in their conversations that the election setback and the threat of stiff labor legislation have not lessened their determination to win wage raises to offset what they said were higher living costs.

## Burn the Accused

Peiping, Nov. 13 (AP)—Chinese police reported today that 36 priests in the famous Taoist Temple Fayunkuan (White Cloud) revolted yesterday and burned to death the temple's abbot and its Taoist layman on a huge bonfire. The police said the priests accused the two men of violating Taoist regulations. The charges included "unlawful selling of temple property, including sacred books and sacrificial livestock, and illegal relations with women."

## Presidential Inspection

Washington, Nov. 13 (AP)—The White House announced that on Saturday President Truman will inspect the Naval Academy at Annapolis, address the Midshipmen and attend the Penn State-Navy football game.

## 300 Die in Quake

Lima, Peru, Nov. 13 (AP)—The Prefect of Ancachs Department, telephoned today that 300 persons had been killed and 250 injured in the Conchucos area in earthquakes which started Sunday.

## About the Folks

Mrs. Andrew Murphy, Sr. of Stuyvesant street is a patient in the Benedictine Hospital, where she is recovering.

Mr. and Mrs. Elton Elsworth of 83 Hasbrouck avenue, are the parents of a son, Harold Edward Elsworth, born October 25 at Kingston Hospital.

## Late Bulletins

Lake Success, N. Y., Nov. 13 (AP)—The United States today asked the United Nations to limit its hunt for a permanent headquarters site to four areas—New York, San Francisco, Philadelphia and Boston.

The New York area would include the suburban Westchester-Fairfield location first selected for the peace capital site by the General Assembly in London last winter.

Under the United States proposal, a sub-committee would begin immediately a study and inspection of the sites and report back to the headquarters committee in time for formulating a recommendation to the Assembly in the current New York session.

## Local Death Record

Mrs. Florence D. Van Horn of 267 Washington avenue, died Tuesday. She was the wife of the late C. Van Horn and is survived by one son, Nelson Van Horn of Kingston; a sister, Mrs. H. L. Davis, of Plainfield, N. J., and several nieces and nephews. Funeral arrangements later.

Mrs. Anna B. Scaman, R.N., wife of Ernest Scaman, died at her home, 61 Flatbush avenue, Tuesday. She was born in Marlborough and had been a resident of Kingston for 21 years and formerly operated a nursing home for many years. She was a member of the Church of the Comforter. Surviving besides her husband is one daughter, Lawrence Hogan of Wittenberg, a grandson, Harry Hales and several nieces and nephews. Funeral will be held from the W. N. Conner Funeral Home, 196 Fair street, Friday at 2:30 p. m. Burial will be in Mountain View Cemetery, Saugerties.

The funeral of Louis Aduchefsky, 41 North Front street, who died Tuesday at the Kingston Hospital following a short illness, was held this afternoon from the F. Daniel Halloran Funeral Home, 88 West Chester street at 3:30 o'clock. His wife, Tessie Kreis Aduchefsky, died some time ago. Surviving are two sons, Melvin, New York city; and Merton of Kingston; one daughter, Mrs. Rhoda Rose, of New York city; one brother, Philip of Kingston; two sisters, Mrs. Mary Konan of Kingston and Mrs. Sarah Maslick of New York city. Rabbi Maslick, Danziger of Congregation Agudas Achim officiated. Burial was in Montrose cemetery.

Nicholas J. Murphy died suddenly at Syracuse, N. Y., on Tuesday. He was a native of Kingston and for many years held the responsible position of office manager for the Armour Packing Company at Syracuse. He is survived by his wife, Mrs. Margaret Madden Murphy; two daughters, Mrs. M. Rittoso and Mrs. William Sander and two sons, James A. and Kenneth Murphy of Syracuse; also his mother, Mrs. Ellen Murphy, a sister, Miss Kathryn Murphy, R.N., and a brother, James R. Murphy all of Kingston. Funeral will be held from the home of his mother, 82 Crane street, Friday morning at 9:30 o'clock and at 10 o'clock from St. Mary's Church where a solemn high Mass of requiem will be offered at 10 o'clock. Interment in the family plot in St. Mary's Cemetery.

The funeral of John J. Costello, was held Tuesday morning at 9:30 o'clock from the James M. Murphy Funeral Home and at St. Mary's Church 10 o'clock, where a solemn high Mass of requiem was offered for the repose of his soul by the Very Rev. Monsignor Martin J. Drury, P.R., V.F. with the Rev. Francis Molony as deacon and the Rev. John A. Flaherty as sub-deacon. The responses were sung by the children's choir under the direction of organist Theodore Riccio. The church was filled with sorrowing relatives and friends, who came to pay their last tribute by attending the requiem. There were a profusion of flowers and dozens of spiritual bouquets, and while the body was at the funeral home, hundreds offered their condolence and sympathy to the bereaved family. Monsignor Drury called and said the prayers for the dead, Monday evening at 7:30 o'clock. St. Mary's Holy Name Society, led by President Leo T. Lynch, assembled at the home and assisted Father Molony in the recitation of the Rosary. At 8 o'clock members of the Cornell Hose Company met and paid their respects. Later the same evening, Kingston Council Knights of Columbus with Grand Knight Frank A. Reis in charge, assisted the Rev. John Brown, chaplain, in saying the Rosary. The casket bearers were William Geary, George Matthews, E. Wright Mains, Clarence Barber, Edward Murphy and Edward VanEtten. Burial was in the family plot in St. Mary's cemetery, where the final absolution and blessing was given by Fathers Flaherty and Molony.

## LYONSVILLE

Lyonsville, Nov. 13—Church services Sunday at 2 p. m. will be conducted by the Rev. J. Dean Dykstra, pastor of the Fair Street Reformed Church, Kingston. A large attendance is expected. Following the service the treasurer's report will be given.

The auction at Floyd Davis' and the late Cyrus Baker's, Saturday, were well attended. Several families from the city spent the week-end and Armistice Day at their summer homes here.

## Precautions Continue

London, Nov. 13 (AP)—An informed source said today that security precautions against threatened violence in England by Palestine underground organizations would be continued indefinitely, despite the fact that yesterday's royal opening of Parliament passed without incident.

## Garment Workers Get Pay Increase In New York City

New York, Nov. 13 (AP)—Former Governor Charles Poletti, impartial chairman of the coat and suit industry, today awarded a 7½ to 10 per cent cost of living wage increase to 42,000 workers in the industry.

Representatives of the industry and of the New York Joint Board of the Cloak, Suit, Skirt and Reefer Makers Union, an affiliate of the A.F.L. International Ladies' Garment Workers Union, were notified of the award in a meeting at Poletti's office.

Isidore Nagler, acting general manager of the union's joint board, said the increase would average \$7 a week for 95 per cent of the workers and would bring the new scale, effective December 15, to a range of from about \$60 to \$90 for a 35-hour week.

The award applies to factories in the metropolitan area, most of them in New York city. The 7½ per cent increase goes to piece workers and the 10 per cent increase to workers paid by the week.

## Card of Thanks

We wish to thank the neighbors of the community for their many acts of kindness and floral tributes during the illness and death of Mrs. Mary Wolven.

Signed,  
MRS. AND MRS. NICHOLAS ROWE AND FAMILY.

## DIED

MURPHY—Suddenly at Syracuse, New York, Tuesday, November 12, 1946, Nicholas J. Murphy, beloved husband of Margaret Madden Murphy and devoted father of Mrs. M. Rittoso, Mrs. William Sander, James A. and Kenneth Murphy of Syracuse, N. Y.; son of Mrs. Ellen Murphy of Kingston, N. Y., and brother of Miss Kathryn M. Murphy and James R. Murphy of Kingston.

Funeral from the home of his mother, Mrs. Ellen Murphy, 82 Crane street, Kingston, Friday morning, November 15, at 9:30 o'clock, thence to St. Mary's Church where a solemn high Mass of requiem will be offered at 10 o'clock. Interment in the family plot in St. Mary's Cemetery.

VAN HORN—In this city, Tuesday, November 12, 1946, Florence D. VanHorn, wife of the late C. VanHorn; mother of Nelson VanHorn of Kingston and sister of Mrs. H. L. Davis of Plainfield, N. J.; also survived by several nieces and nephews. Funeral arrangements will be announced later.

## Memoriam

In loving memory of our dear brother, Louis Bodie, who passed away one year ago today, November 13, 1945.

We who loved you sadly miss you, as it seems another year.

In our lonely hours of thinking, Thoughts of you are ever near.

Signed,  
SISTER and BROTHERS.

# Talorico, Winner Over Virgilio, Fights Here Thursday Night

## Amateur Card Is Revised Adding More Top Fighters

Flag-Baker Match Still Feature of B'nai B'rith Card: Eaton to Box Roosevelt Owens

A revision in the B'nai B'rith card for Thursday night promises plenty of fistie thrills to boxing fans who patronize the boxing show at the municipal auditorium. Starting time is 9 o'clock.

Dick Talorico, the Utica bantamweight who defeated Carmine Virgilio in Poughkeepsie last week, has been added to the list of scrappers, also Herbie Eaton, his stablemate, Roosevelt Owens, New York star, and Ralph Beaza, Boston leather luminary.

The Roosevelt Flag-Baker match remains intact, but three preliminaries have been removed from the card, making way for the attractive top-flight, five-round attractions.

Talorico, who made a hit with Poughkeepsie fans by decisioning Virgilio in a fiery exhibition, is matched with Ralph Beaza, who defeated Percy Wilson, Irwin Rhadet and Juan Lindes, three classy New Yorkers.

"We had to scour the amateur ranks to procure a battler like Beaza," said Dr. Saul Goldfarb, chairman of B'nai B'rith boxing committee. "A man has to be more than an ordinary scrapper to trade punches with Talorico, who demonstrated in his win over Virgilio that he upset some real classy pugilists in going to the finals in regional tournaments."

Herbie Eaton, the other Utica leather pusher is matched with Roosevelt Owens, the flashy New Yorker who got the nod over Roosevelt Flagg in the five rounder that stood out for action on the last B'nai B'rith card. Owens and Eaton are rated as two of the outstanding featherweights in the Simon Pure class.

Although Flagg dropped the duke here on the previous card,

DICK TALORICO

many fans are awaiting his return, especially against Tommy Baker, the Gloversville featherweight who took the measure of Paul Peters and Percy Wilson in two appearances here. Unless a ringman is exceptionally smart, there's no chance of getting by Baker.

Tiny Townsend, local lightweight, hopes to score an impressive win over Paul Alegro of Albany and thus start a victory skid that will lead him into a match with Willie Champion of Cleveland.

Bouts removed from the card are: Harold Morton, Albany, vs. Mickey Natale, Utica, who is incapacitated; Al Gibson, Albany, vs. Eddie Albright of Kingston, who is ill; Frank Bunce, Kingston, vs. Jim Harrison of Albany.

Preliminaries, featuring local boxers, are: Barney Emberson, 118, Kingston, who won by a knockout in Poughkeepsie last week, vs. Jimmy Foster, Albany. Each holds a decision over the other, which

Charlie Marable, Kingston High School middleweight, vs. Gil Brown, Ravena.

Bobby Bowers, Kingston, 140-pounder, vs. Johnny Davis, Albany.

Reserved seats are on sale at B'nai B'rith, Wall street, phone 3018.

## K. A. A. Battles Port Eleven Sunday at Uptown Stadium

Valley League Encounter Draws Home Curtain for '46 Football Season; Port Has Improved

The Kingston Athletic Association football team will meet the improved Port Jervis Merchants Sunday afternoon at municipal stadium in the season's final home game of the regular Hudson Valley Semi-Pro League schedule.

Despite an earlier 19 to 2 defeat by Coach Tom Mallan's grid-ders, the Tri-Staters are expected to furnish plenty of opposition Sunday if their performance in last week's game with Middletown is any indication.

Last Sunday Port and Middletown fought through a thrilling league encounter with the Middies finally coming out on top by the score of 13 to 0. In its two previous meetings with the Middies, Kingston has been beaten 18 to 0 and 25 to 20.

With these records in mind, Sunday's final home game should be packed with plenty of football for local fans who pass through the uptown turnstiles. Kingston, although out of the running as far as league honors are concerned, is anxious to even its record for the year and a win over Port would do just that.

**Out to Even Record**  
The Mallanmen have played five league contests this year with victories over Newburgh and Port, and losses to Middletown (twice) and Walden.

The local eleven didn't exert itself too much in pounding out that 25 to 0 victory over the Jersey City Anchor Club last Sunday at the uptown stadium but indications are that the local moleskin will have to be on their toes if they expect to win this week's battle.

"We were very disappointed with the showing of last Sunday's exhibition attraction," Larry Glenon remarked this morning "but local gridiron fans can be assured of seeing some good football if they come up to the stadium this Sunday. Port has a good team with lots of drive and it should press Kingston to the fullest."

Port's entry in the Hudson Valley Semi-Pro League is studded with former high school stars at P.H.S., including Bill Gervilly, Harry Seiber, Pete Kelly, Cuddie back, Fran Myers, Clifford, Jim Garrity and several others.

Despite that 13 to 0 setback by the Port Jervis Merchants last week, Port Jervis fared very well by rolling up eight first downs to Middletown's four. The Tri-Staters outscored the Orange county outfit by 49 to a minus 21. The Middies gained 59 yards by rushing but in turn were thrown for a total of 80 yards' loss.

**Writers Praise Teams**  
"The game was a clash of two violent lines of equal defensive strength," a Middletown scribe wrote about the contest. He continued, "Neither would give way and the aerial circus that took place was a normal reaction to the situation. Middletown flung 18 passes and Port threw 20. The Middies completed six to nine for Port, but two of the Middletown heaves went for touchdowns. In addition, the Porters came up with a razzle-dazzle lateral passing display that had the crowd gasping. Time and time again trapped Port runners flipped the ball off to the side when they had been stopped."

Jack Ruzzo, the ex-marine star, will be back in action with the local club in Sunday's contest. The rest of the K.A.A. eleven is in top shape.

## Mayorettes Extend Skein to 30 Games In Emerick's Loop

Etta Ginder, Marge Jansen Top Unbeaten Female Trundlers Tuesday at Rec Alleys

The amazing string of victories rolled by the Mayorettes of the Emerick's Ladies Bowling League reached the 30 mark Tuesday night at the Central Recreation drives at the expense of Schwenks who failed to stop the juggernaut.

The Mayorettes, operating against an 88-pin handicap in each game, took the first by 78 pins, the second by 51 and wound up with an even better margin of 97 pins.

**Ginder Registers 524**  
Pacing the unbeaten stars of Emerick's League was Etta Ginder who banged out a 524 triple on scores of 185, 163 and 174. Marge Jansen with 492 was second high and Reta Fredericks rolled a 483 series.

M. McCordle was high for Schwenks with a 423 three-timer.

The Mayorettes wound up the night with a 2417 triple while the Schwenk keggers had a 2191.

Scores of this match and all others will be published in Thursday's Freeman.

**Bisons New Manager**

Buffalo, N. Y., Nov. 13 (AP)—Roger Thorpe Peckinpaugh, former manager, vice president and general manager of the Cleveland Indians, is the new general manager of the Buffalo Bisons of the International Baseball League. Peckinpaugh succeeds Stanley (Bucky) Harris, who joined the New York Yankees at the end of Bisons' past season and recently was named manager of the Bronx Bombers. President John Gehm of the Buffalo baseball club announced Peckinpaugh's one-year contract yesterday.

**Mangrum Beats Ghezzi**  
Buenos Aires, Nov. 13 (AP)—Lloyd Mangrum, who won the U.S. Open Golf championship last summer by defeating Victor Glezzi and Byron Nelson in a playoff, had to survive another playoff to gain the Argentine Open title. Mangrum defeated Ghezzi by one stroke yesterday after the two Americans had been tied for first place in the final day of regular tournament play. Mangrum had a 74, Ghezzi 75.

**Ditches Invitation**  
Berkeley, Calif., Nov. 13 (AP)—The University of California has rejected an offer to play the University of Miami football team at Miami, Fla., November 29. General Manager Clint Evans of the California Bears said today.

**FIGHTS LAST NIGHT**  
(By The Associated Press)  
Buffalo—Leo Oma, 192, Detroit, outpointed Joe Muscasto, 192½, Buffalo, 10.

Pittsburgh—Ezzard Charles, 175, Cincinnati, outpointed Jimmy Bivins, 186, Cleveland, 10.

Trenton, N. J.—Al Mobley, 143, Elizabeth, N. J., outpointed Fritz Zivic, 146, Pittsburgh, 8.

## Potters Whip Aborns to Share Lead in Y. M. C. A. Cage League

37-28 Victory Tuesday Puts Club in Tie With V.F.W., Chez Emile, Marines Win

Potter Brothers and the V.F.W. cagers were in a two-way tie for first place in the Y.M.C.A. Basketball League this morning following a 37 to 28 victory by the former quintet Tuesday evening over the Aborn team.

Buddy Hughes and Jess Shultis were the big point-getters for Potters as they took a 20 to 15 lead at half time and continued to assault the wicket with good results in the final two periods to come out on top by 37-28. Hughes tossed in 12 markers while Shultis, twirling the cords six times from the foul line, collected 10. Perry was high for the losers with 11.

The Chez Emile five, formerly the Shamrocks, hit one of the biggest scoring nights of the season by turning back the Swamp Lilies, 60 to 34. Haber and McElrath divided scoring honors for the winners with 12 points apiece. Puccio's 10 topped the Lilies.

In the only other league contest Tuesday night the Marines took a 20 to 14 victory over the Mad-den Aces after posting a 10-4 margin at half time. Ross tossed in six points for the leathernecks while Maroon's five paced the Aces.

**Vets Play Thursday**  
The V.F.W. cagers are scheduled to play the Hustlers in another league game Thursday night at the "Y" boards starting at 7 o'clock.

Last night's boxscores:

	FG	FP	TP
Hughes, f .....	5	2	12

**Durocher Isn't In**  
Brooklyn, Nov. 13 (AP)—Ten Brooklyn "men of the year," chosen by a poll of borough leaders, were named today in the official publication of the Brooklyn Rotary Club. . . and surprise, surprise, no Leo Durocher. The manager of the Dodgers lost out in the sports category to the "Peep's Chere," outfielder Dixie Walker, because he failed to keep his interests in Brooklyn after playing time. The awards will be made each year, it was announced, to prevent Brooklyn's leaders from being "lost in the shadows of Manhattan's gay white way."

## Karam Cites Rapid Changes In Pro Basketball Setup

Players Now Limited to Compete in Single Loop; Top Stars Get More Dough

As Kingston and area fans prepare to welcome back professional basketball when the Kingston Chiefs engage the Jersey City Reds, headed by Hagen Anderson, at the municipal auditorium Saturday evening, A. B. "Turk" Karam, Brooklyn baseball scout, reveals some of the many changes in pro basketball during the past few years.

"The game of basketball has changed tremendously in the past few years," Karam said today. "The yearly changes of playing rules which started with the doing away of the center tap after every basket has streamlined the court game and forced the use of more players and much larger squads. In the past, it was common to see a pro team walk on the floor with five or six athletes to play a game. Today, a coach must have eight, nine, 10 or 11 players in order to have a winning combination," Karam added.

**More Expense Involved**  
"Larger squads are much more expensive," the Dodger ivory hunter commented, "but they do bring out faster and better basketball and give more players an opportunity to play. Another advancement for the game developed when leagues made rulings that prevent a top-flight player from performing in more than one league during a season."

In the old days a good player would be with an American League club twice a week and on off nights he would be seen in the uniform of a New York State League club or playing in the New England League and Penn State League. The halting of such methods means the developing of better players throughout the country and gives the fair college player an incentive to remain in the game after he graduates," Karam went on to comment.

Such statistics also revealed that the game is definitely on the up-grade with top-flight stars receiving salaries anywhere between \$700 to \$2,500 per month in the Basketball Association of America and the National Basketball League. In the past, \$400 to \$500 a month was a good salary. Players such as Nat Holman, Benny Borgmann, Roddy Cooney and members of the Original Celtics made \$800 to \$1,000 a month but those figures didn't last more than a couple of seasons.

According to Karam, the Kingston Chief players will be making \$450 to \$500 per month and they only play three games a week. Many of these stars had offers

## Yanks Call Off Usual Exhibition Tour After Drills

New York, Nov. 13 (AP)—When the New York Yankees break spring baseball training camp at St. Petersburg, Fla., April 4 they will abandon their usual exhibition tour except for stops at Atlanta and Baltimore en route north. There will, however, be a 21-game exhibition series in Florida, Yankee President Larry MacPhail announced yesterday.

The Yankee regulars, a squad of 22 men, will open training at Juan, Puerto Rico, February 13, while the second team will start work at St. Petersburg February 28.

The No. 1 squad will barnstorm through the Caribbean area, playing 13 games in Puerto Rico, Venezuela and Cuba, before joining the second stringers and rookie prospects at St. Petersburg March 10.

**Connie Bound for Coast**

## Boston Blue Hills Plans U.N. Bid Again

Boston, Nov. 13 (AP)—Gov. Maurice J. Tobin plans to call "at the earliest possible moment" a meeting of a committee organized several months ago in an effort to have the United Nations locate its permanent headquarters in Boston Blue Hills area.

The section is definitely being considered as a possible site in the wide-open contest among bidders for the permanent home, and was reported at Lake Success, N. Y., as one of the leading contenders. The others were listed as Westchester County, N. Y., New York city, San Francisco, and Philadelphia.

The Massachusetts committee was organized when the first bid was made. The Blue Hills reservation was rejected at that time because of Russian objections.

Upon his return from New York yesterday, the governor said "no stone should be left unturned" in an effort to have Blue Hills selected because it would "make our section of the country the center of the world."

## Vermonters Suggest Only Half Lose Their Jobs

Washington, Nov. 13 (AP)—Democrats who for years have uttered bitter things about certain New England states (like "as Maine goes, so goes Vermont") should go stand in a corner.

Ralph E. Flanders, Vermont's new Republican senator, proposed today that the G.O.P. axe only 50 per cent of the Democrats, who got capital patronage jobs when their party was in power.

"I suggest," he told newsmen, "that we fire half of them, and fill these jobs with Republicans."

"Then the majority party also could fill any vacancies as they developed. Never again ought we to have a full patronage swap."

But Flanders' fellow Republicans are yet to be heard from.

## Philly Wants U.N.

Harrisburg, Pa., Nov. 13 (AP)—Philadelphia renewed its bid today for consideration as the home of the United Nations, backed up by assurance from Governor Edward Martin that the organization's personnel, visitors and all persons transacting business with it "will be most welcome in our commonwealth."

## Quake Kills 100

Lima, Peru, Nov. 13 (AP)—Peru counted at least 100 known dead today in interior towns wrecked by earth shocks which began last Sunday and feared a higher toll might become known with restoration of smashed communications facilities.

## Gallup Says Schools Produce Millions of Political 'Blanks'

Philadelphia, Nov. 13 (AP)—day-to-day information on local government and local politics is a great need from America's newspapers.

"By simply told, complete information about municipal government and political action, the local newspapers can stimulate readers to knowledge and to action, to organize neighborliness," Reichler said. "Politics too often has been a special possession of party machines."

David E. Lilienthal, recently appointed chairman of the Atomic Energy Commission, charged that advocates of "big government" were threatening the substance of democracy.

Lilienthal, one time chairman of the Tennessee Valley Authority, asked a return of greater responsibility to local governments. He said concentration of governmental functions in a national capital "reduces the effectiveness of government and brings one of two results:

"Either distrustful citizens refuse to yield to the national government the powers it should have in the common interest, or an arrogant national government imposes its will by force. In either case, the substance of democracy has been lost."

The typical candidate for office, Gallup said, "takes leave of good manners, sense of fairness, and their (the people's) intelligence and puts on a devil's mask proceeding to run up and down the countryside beating tab-toms and uttering sheer nonsense."

Oxie Reichler, editor of the New York Herald-Statesman, told the league more detailed,

tive of the Ulster-Greene Council, showed moving pictures of the Boy Scout Camp at East Jewett, taken during the past summer. There were also some films relating to the construction of Kay-Bel Lake. Mr. Allyn gave interesting comments on members of Troop 26, who were in camp during July. A film, "Lease on Life," was shown by Mr. Allyn through the courtesy of the Ulster County Tuberculosis and Health Association. It was a talking picture showing what the Jones family did to stay well and avoid unnecessary sickness. At the assembly last week Corporal Jules Viglielmo, recently discharged from the Army as an interpreter, gave a most interesting talk on "Japan," describing the houses, industries and schools. He told the pupils how to write various letters in Japanese and spoke several sentences in Japanese. He passed several articles among the pupils that he had brought back from Japan, among them being a reading book.

The first sea battle on record was between the Corinthians and the Corcyreans about 665 B.C.

## Readjustment Act Can't Symie Billing, Cooing

Hartford, Nov. 13 (AP)—The Servicemen's Readjustment Act shouldn't put barriers in the way of billing and cooing, and that's an official ruling from an appeals referee who decides whether or not veterans are entitled to unemployment compensation.

Referee Joseph J. Gibbons used somewhat more formal language in the opinion made public yesterday approving compensation for an ex-G.I. who quit a night shift job because his fiancée worked days.

Gibbons said the act must not "render less smooth the romantic purposes of its beneficiaries."

The unidentified veteran and his bride-to-be needed to do many things "that could only be done jointly," such as buying furniture and hunting an apartment, said Gibbons, mentioning also the "normal human desire of an engaged couple to see a great deal of each other."

Gibbons added that the veteran didn't take advantage of the ruling for long. He got another job now—on a day shift.

**Wiltwyck Banquet**

Plans for holding the annual banquet the latter part of January were discussed at the meeting of Wiltwyck Hose Co. on Tuesday evening at the Fair street fire house. Jay T. Every was named chairman of the entertainment committee to arrange for the annual event. At the close of the meeting educational films were shown by Rodney DuBois.

The pulse of newborn infants beats from 130 to 140 times a minute.
